Tailspin Steven Brill,2018-05-29 In this revelatory narrative covering the years 1967 to 2017 Steven Brill gives us a stunningly cogent picture of the broken system at the heart of our society He shows us how over the last half century America's core values meritocracy innovation due process free speech and even democracy itself have somehow managed to power its decline into dysfunction They have isolated our best and brightest whose positions at the top have never been more secure or more remote The result has been an erosion of responsibility and accountability an epidemic of shortsightedness an increasingly hollow economic and political center and millions of Americans gripped by apathy and hopelessness By examining the people and forces behind the rise of big money lobbying legal and financial engineering the demise of private sector unions and a hamstrung bureaucracy Brill answers the question on everyone's mind How did we end up this way Finally he introduces us to those working quietly and effectively to repair the damages At once a diagnosis of our national ills a history of their development and a prescription for a brighter future *Tailspin* is a work of riveting journalism and a welcome antidote to political despair

Inflation-Proof Tax System? Some Lessons From Israel International Monetary Fund,1990-05-01 This paper strengthens the claim made by Vito Tanzi that when the effect of a high inflation on the tax system is taken into account then the overall revenues from inflationary finance may well be negative The paper analyzes some genuine and neat measures taken in Israel in an attempt to construct an inflation proof tax system Despite these very elegant measures the paper concludes that the Israeli experience suggests that it is more appropriate to talk about the inflation subsidy rather than the inflation tax
