

A futuristic, blue-toned digital interface with glowing lines, data points, and abstract shapes. The text "AI OVERVIEW" is centered in a bold, white, sans-serif font. The background features a dark blue gradient with various glowing elements, including a large, stylized "A" on the left and a circular graphic on the right. The overall aesthetic is high-tech and modern.

**Digital Libraries Across Continents** Le Yang, Alicia Salaz, 2025-06-13 Digital Libraries Across Continents illustrates how digital librarianship practitioners and scholars digitize exhibit and preserve their cultural heritage and how these practices may be influenced by the policy economic and sociocultural environments in which they are developed Including scholarly articles case studies examples of best practice and conceptual essays solicited from different continents this book provides an overview of the status quo of digital libraries around the globe The case studies examine how macro level policy funding and social priorities influence the development of digital libraries The volume offers a deeper understanding of the similarities and differences between libraries in different countries and the ways in which they view foster develop and sustain digital librarianship Chapters within the book examine systems standards workflows content protocol social and policy environments culture metadata and more through a series of case studies provided by practitioners working in these settings Taking a comparative international approach the book promotes the development of inclusive accessible and sustainable digital libraries that serve a global human knowledge endeavor Digital Libraries Across Continents provides a wide ranging examination of issues in cross border digital library contexts It will be essential reading for library practitioners as well as information scientists and educators

**Monthly Bulletin**, 1897 **Dietary Reference Intakes for Calcium, Phosphorus, Magnesium, Vitamin D, and Fluoride** Institute of Medicine, Food and Nutrition

Board, Standing Committee on the Scientific Evaluation of Dietary Reference Intakes, 1999-10-17

Since 1941 Recommended Dietary Allowances RDAs has been recognized as the most authoritative source of information on nutrient levels for healthy people. Since publication of the 10th edition in 1989 there has been rising awareness of the impact of nutrition on chronic disease. In light of new research findings and a growing public focus on nutrition and health the expert panel responsible for formulation RDAs reviewed and expanded its approach the result Dietary Reference Intakes. This new series of references greatly extends the scope and application of previous nutrient guidelines. For each nutrient the book presents what is known about how the nutrient functions in the human body what the best method is to determine its requirements which factors caffeine or exercise for example may affect how it works and how the nutrient may be related to chronic disease. The first volume of Dietary Reference Intakes includes calcium phosphorus magnesium vitamin D and fluoride. The second book in the series presents information about thiamin riboflavin niacin vitamin B6 folate vitamin B12 pantothenic acid biotin and choline. Based on analysis of nutrient metabolism in humans and data on intakes in the U S population the committee recommends intakes for each age group from the first days of life through childhood sexual maturity midlife and the later years. Recommendations for pregnancy and lactation also are made and the book identifies when intake of a nutrient may be too much. Representing a new paradigm for the nutrition community Dietary Reference Intakes encompasses Estimated Average Requirements EARs. These are used to set Recommended Dietary Allowances. Recommended Dietary Allowances RDAs Intakes that meet the RDA are likely to meet the nutrient requirement of nearly all individuals in a life stage and gender group. Adequate Intakes AIs. These are used instead of RDAs when an EAR cannot be calculated. Both the RDA and the AI may be used as goals for individual intake. Tolerable Upper Intake Levels ULs. Intakes below the UL are unlikely to pose risks of adverse health effects in healthy people. This new framework encompasses both essential nutrients and other food components thought to play a role in health such as dietary fiber. It incorporates functional endpoints and examines the relationship between dose and response in determining adequacy and the hazards of excess intake for each nutrient.

[The Venture Alchemists](#) Rob Lalka, 2024-05-14

Gold Medalist 2025 Axiom Business Book Awards Business Ethics Future Trends category Shortlist 2024 Best in Business Book Awards Society for Advancing Business Editing and Writing. We once idolized tech entrepreneurs for creating innovations that seemed like modern miracles. Yet our faith has been shattered. We now blame them for spreading lies breaking laws and causing chaos. Yesterday's Silicon Valley darlings have become today's Big Tech villains. Which is it? Are they superheroes or scoundrels? Or is it more complicated some blend of both? In *The Venture Alchemists* Rob Lalka demystifies how tech entrepreneurs built empires that made trillions. Meta started as a cruel Halloween prank. Alphabet began as a master's thesis that warned against corporate deception and Palantir came from a campus controversy over hateful speech. These largely forgotten origin stories show how ordinary fears and youthful ambitions shaped their ventures.

making each tech tale relatable both wonderfully and tragically human Readers learn about the adversities tech entrepreneurs overcame the troubling tradeoffs they made and the tremendous power they now wield Using leaked documents and previously unpublished archival material Lalka takes readers inside Big Tech s worst exploitations and abuses alongside many good intentions and moral compromises But this story remains unfinished and The Venture Alchemists ultimately offers hope from the people who decades ago warned about the risks of the emerging Internet Their insights illuminate a path toward more responsible innovations so that technologies aren t dangerous weapons but valuable tools that ensure progress improve society and enhance our daily lives
