A Pedagogical Design for Human Flourishing Cynthia McCallister, 2022-03-28 In *A Pedagogical Design for Human Flourishing: Transforming Schools with the McCallister Model* Cynthia McCallister presents a revolutionary paradigm for education that is practical, conceptually convincing, and grounded in contemporary behavioral science theory. Beginning with the assertion that equality of educational opportunity depends on access to experiences that are sufficiently appropriate and rich to enable the achievement of diverse human potentials, she provides a comprehensive school design for intervention that demonstrates how to achieve it. Grounded in recent advances in learning science, McCallister asserts three necessary conditions for learning: the need for learners to have access to diverse, rich environmental experiences; the need for them to enjoy fundamental freedom and autonomy to direct their own learning; and access to full and free forms of association. In her model, these conditions provide what is necessary for learners to coordinate their minds with others to develop their identities, personalities, and talents. These conditions are animated in concrete procedures that can be adapted to a wide variety of populations in formal, informal, and remote educational settings. The procedures take the form of rules that learners comply with in the exercise of their freedom. When they are followed, the rules provide a grammar for the social norms that govern the moral worlds of learners and compel them to flourish. Tested over two decades in her work as a teacher, scholar, and school reformer in more than 20 NYC public schools, the McCallister Method has delivered an innovative and disruptive approach to schooling that has proven successful in finally transforming low-performing industrial schools into 21st-century learning organizations. Online support material includes assessments, records, surveys, and more to be used in school design and classroom settings.

Can I Teach That? Suzanne Linder, Elizabeth Majerus, 2016-07-11 *Can I Teach That? Negotiating Taboo Language and Controversial Topics in the Language Arts Classroom* is a collection of stories, strategies, advice, and documents collected for teachers who are using or plan to use materials or implement policies they know may be controversial. It is for any teacher dedicated to engaging their students in the complex, challenging, and rewarding activities of reading and writing for any teacher committed to speaking honestly with students. For any teacher period. Because when we decide to work with young people when we commit to

sharing books and ideas that engage their hearts and minds when we strive to get adolescents to think critically and write honestly we open ourselves up to suspicion and critique from someone somewhere no matter how above reproach we feel our materials and strategies are Few language arts teachers will experience a full blown challenge to the content of their curriculum but many may self censor or suffer through awkward and challenging conversations with colleagues administrators parents and other members of their community This book is for those times when teachers are called on to defend and legitimize their use of controversial material in their classroom material that they know reflects students reality even as it makes adults uncomfortable and fearful about their inability to protect children from that very reality
