Aukerman, 1984 **Educational Computing** Cleborne D. Maddux, Dee LaMont Johnson, Jerry Willis, 2001 This text focuses on general concepts theory and research on teaching learning and technology rather than on hands on assignments at the computer This book is most suitable for courses where students already have basic computing skills and the focus is on issues of integration of technology in the classroom or for courses where computing skills are taught simultaneously with the concepts issues and theories of integration This text is geared toward answering the question What would a teacher do differently if she/he used computers in her/his classroom The book links actual practice to underlying theories of both teaching and learning It helps students develop their own framework for thinking about educational computing **Children's Software & New Media Review**, 2001 *CSR*, 2001 Great Expectations, 2002 **The Principal's Guide to Raising Reading Achievement** Elaine K. McEwan-Adkins, 1998-04-20 I found the Principal's Guide to Raising Reading Achievement to be an excellent source of information for any elementary school principal who is concerned about the level of reading achievement in his/her school The book contains not only an excellent and balanced discussion of some of the major controversies in the area of reading instruction but also shows how these controversies should not be a stumbling block to providing a balanced comprehensive instructional program for children Joseph Torgesen Professor of Psychology Florida State University Now you can plan and set the tone for making sure reading levels go up in your school McEwan offers common sense ways to change the way your students learn to read The author states three important goals Realize and use the power you have to create a school of readers Keep up with the available research on how to teach reading more effectively so that you and your teachers can decide what methods will work best for your students Learn and use the eight key components included in this book to raise student reading achievement

The author begins by explaining why your students can't read as well as they should. She shows you changes you can make right away to start raising your students' reading levels. McEwan summarizes the debate between phonics and whole language and helps you understand how a balanced approach can work for your students. Find out what you need to boost reading scores at your school. The book shows you the eight big ideas essential to improving your students' reading. What your students need to know about reading and learning. Thirty plus things you can do tomorrow to raise reading achievement. Teaching reading related web sites you can visit to get more help for your students. A recommended reading list to help you start your program. McEwan offers you the kind of practical guidance you need to start a productive reading improvement program in your school. She shows you the best ways to get buy-in from your teachers and how to build their enthusiasm and continued support. You'll learn how you can involve your students' families along with the greater community and begin to work toward your crucial shared goal of boosting students' reading levels. If you want to make a significant difference in your students' reading abilities and scores and help them learn to like reading, this book can point the way.
