sectors in countries with more open capital markets to foreign investment Third we find that the relative factor price of labor to capital and capital intensity in manufacturing sectors appreciate as windfall increases Fourth we find that manufacturing sectors with higher capital intensity are less affected by windfall shocks than their peers possibly due to a larger share of the effect being absorbed by more laborintensive tradable sectors An implication of the fourth result is that having diverse manufacturing sectors in capital intensity helps cushion the volatility of oil shocks [Learn Dutch](#) Christopher Panaretos,2020-05-09 This book teaches you the basic rules of Dutch It covers pronouns nouns articles adjectives possessives verbs adverbs and prepositions If you are studying traveling or just interested in learning more about the language this is a good place to start **Short Stories in Dutch for Beginners** Olly Richards,2019-12-26 An unmissable collection of eight unconventional and captivating short stories for young and adult learners of Dutch Olly s top notch language learning insights are right in line with the best of what we know from neuroscience and cognitive psychology about how to learn effectively I love his work and you will too Barbara Oakley PhD Author of New York Times bestseller A Mind for Numbers Short Stories in Dutch for Beginners has been written especially for learners from high beginner to low intermediate level designed to give a sense of achievement and most importantly enjoyment Mapped to A2 B1 on the Common European Framework of Reference CEFR for languages these eight captivating stories will both entertain you and give you a feeling of progress when reading What does this book give you Eight stories in a variety of exciting genres from science fiction and crime to history and thriller making reading fun while you learn a wide range of new vocabulary Controlled language at your level to help you progress confidently Realistic spoken dialogues to help you learn conversational expressions and improve your speaking ability Accessible grammar so you learn new structures naturally in a stress free way Beautiful illustrations accompanying each story to set the scene and support your understanding Pleasure Research shows that if you re enjoying reading in a foreign language you won t experience the usual feelings of frustration It s too hard I don t understand Carefully curated to make learning a new language easy these stories include key features that will support and consolidate your progress including A glossary for bolded words in each chapter A bilingual word list Full plot summary Comprehension questions after each chapter As a result you will be able to focus on enjoying reading delighting in your improved range of vocabulary and grasp of the language without ever feeling overwhelmed From science fiction to fantasy to crime and thrillers Short Stories in Dutch for Beginners will make learning Dutch easy and enjoyable **Colditz** P.
