Morgan, 2013-07-09 LIKE THE FEMALE SCIENTISTS PORTRAYED IN HIDDEN FIGURES, MARY SHERMAN MORGAN WAS ANOTHER UNSUNG HEROINE OF THE SPACE AGE. NOW HER STORY IS FINALLY TOLD. This is the extraordinary true story of America's first female rocket scientist. Told by her son, it describes Mary Sherman Morgan's crucial contribution to launching America's first satellite and the author's labyrinthine journey to uncover his mother's lost legacy, one buried deep under a lifetime of secrets, political, technological, and personal. In 1938, a young German rocket enthusiast named Wernher von Braun had dreams of building a rocket that could fly him to the moon. In Ray, North Dakota, a young farm girl named Mary Sherman was attending high school. In an age when girls rarely dreamed of a career in science, Mary wanted to be a chemist. A decade later, the dreams of these two disparate individuals would coalesce in ways neither could have imagined. World War II and the Cold War space race with the Russians changed the fates of both von Braun and Mary Sherman Morgan. When von

Braun and other top engineers could not find a solution to the repeated failures that plagued the nascent US rocket program North American Aviation where Sherman Morgan then worked was given the challenge Recognizing her talent for chemistry company management turned the assignment over to young Mary In the end America succeeded in launching rockets into space but only because of the joint efforts of the brilliant farm girl from North Dakota and the famous German scientist While von Braun went on to become a high profile figure in NASA s manned space flight Mary Sherman Morgan and her contributions fell into obscurity until now [Yearbook of International Organizations 2014-2015 \(Volume 2\)](#) Union Of International Associations,Union of International Associations,2014-07-16 The Yearbook of International Organizations provides the most extensive coverage of non profit international organizations currently available Detailed profiles of international non governmental and intergovernmental organizations IGO collected and documented by the Union of International Associations can be found here In addition to the history aims and activities of international organizations with their events publications and contact details the volumes of the Yearbook include networks between associations biographies of key people involved and extensive statistical data Volume 2 allows users to locate organizations by the country in which secretariats or members are located [Warranty Fraud Management](#) Matti Kurvinen,Ilkka Töyrylä,D.
