Reading Comprehension

Physical Maps
 Physical maps show the natural features of a region. They include mountains, rivers, lakes, and oceans. They use colors and shading to show elevation and landforms. For example, green often represents lowlands, while brown and white show mountains and high elevations. Physical maps help us understand the landscape and geography of a region.

Political Maps
 Political maps show boundaries between countries, states, and cities. These maps highlight human-made features such as capitals, major cities, and borders. Each color usually stands for a different state or country. Political maps help us understand how land is divided by governments and international agreements.
