businesses The volume edited by Professors Auerbach and Smetters represents an attempt to reduce the lag between the conduct of research on tax issues and its transmission to a broader public The contributions would explore highly topical issues such as the effects of income tax changes on economic growth the potential effects of capping certain tax expenditures the economics of adjusted business tax policy and environmental tax options Other essays would investigate perennially important themes such as the conduct of tax administration the growing role of the tax system on education policy tax policy toward low income families capital gains and estate taxation and tax policy for retirement savings A final paper would examine three different options for fundamental tax reform
