M. Riad Shams, David M Brown, Kimberley Hardcastle, 2025-03-25 This core textbook empowers and inspires students with sustainable marketing strategies to pursue the triple bottom line People Planet and Profit The purpose is to underpin a brand s commercial competitive advantage through its societal and environmental impact It presents complex cross disciplinary and cross functional theoretical and practical discussions in a simplified manner to specify how the learning outcomes from different chapters can address the grand challenges associated with climate change economic instability geopolitical uncertainty and inequity whilst underpinning profit making ventures responsibly The authors also demonstrate how the

learning outcomes from this book can be applied in pursuit of each of the 17 United Nations UN Sustainable Development Goals (SDGs). Each chapter features a chapter summary, preliminary vignette, key terms, web exercises, review and discussion questions, and a practice quiz. Throughout the text, there are also specific teaching features to provide students and instructors with an enhanced pedagogical experience. These features include The Manager's Corner. These sections provide real-world examples that instructors may highlight to exemplify theory or as mini-cases for discussion. Sustainable Marketing in Action. These sections inspire students to apply concepts and theories to actual business situations. This core textbook prepares the next generation of sustainable marketers to pursue their career goals with a commitment to fostering a positive and sustainable impact on society, the environment, the economy, their organizations, and themselves.

Creating Business and Corporate Strategy Adyl Aliekperov, 2021-06-13. Businesses need strategies that determine the direction of functioning and further development. If a company deals with several multifaceted businesses, each of them subsequently requires their own strategy. The issue of strategy creation and realization is a key factor that must receive the closest possible attention. In order to assure victory and be thoroughly prepared for various directions and situations that may arise, companies create their own unique strategies. This book is primarily aimed at suggesting the necessary repertoire of knowledge and skills for strategy creating with the help of the TASGRAM integrated system. Thinking, Analyzing, Strategy, Goals, Risks, Actions, and Monitoring. The main outcome of TASGRAM is a combined strategic table: business strategy, corporate strategy, goals, risks, actions, and monitoring. Each element in TASGRAM has a concrete goal, and it helps users become more focused.

Creating Business and Corporate Strategy: An Integrated Strategic System offers a new tool for company strategy creation, showcasing various cases and examples based on theory and practice. Unlike the existing tools, the suggested system of strategy creation is simpler and definite. Its main purpose is to help create and further develop the created strategy, making this book especially valuable to researchers, academics, practitioners, and students in the fields of strategy, leadership, and management.

Information Needs of Communities Steven Waldman, 2011-09. In 2009, a bipartisan Knight Commission found that while the broadband age is enabling an info and commun renaissance, local communities in particular are being unevenly served with critical info about local issues. Soon after the Knight Commission delivered its findings, the FCC initiated a working group to identify crosscurrent and trend and make recommendations on how the info needs of communities can be met in a broadband world. This report by the FCC Working Group on the Info Needs of Communities addresses the rapidly changing media landscape in a broadband age.

Contents: Media Landscape, The Policy and Regulatory Landscape, Recommendations, Charts and tables. This is a print on demand report.
