Government Reports Announcements & Index, 1986 *From Pessimism to Promise* Payal Arora, 2024-09-03 A radical paradigm shift in the way we think about AI and tech taking hope and inspiration from the aspirational users of new technologies around the world When it comes to tech the mainstream headlines are bleak Algorithms control and oppress AI will destroy democracy and our social fabric and possibly even drive us to extinction While legitimate concerns drive these fears we need to equally account for the fact that tech affords young people something incredibly valuable a rare space for self actualization In *From Pessimism to Promise* award winning author Payal Arora explains that outside the West where most of the world s youth reside there is a significant different outlook on tech in fact there is a contagion of optimism toward all things digital These users especially those in marginalized contexts are full of hope for new tech As AI disrupts sectors across industries education and beyond who better to shine the light forward Arora argues than the Global South the navigator of all manner of forced disruptions leapfrogging obstructive systems norms and practices to rapidly reinvent itself Drawing on field insights in diverse global contexts such as Brazil India and Bangladesh Payal describes what drives Gen Z to embrace new technologies *From Pessimism to Promise* discusses the shift to relationally driven approaches to design how to create algorithms of aspiration how to reimagine the digital space for sex pleasure and care and what we can learn from feminist digital activists and women s collectives in the Global South on shared digital provenance and value as well as

indigenous approaches to sustainability that challenges sacred ideas on degrowth circular economy and the doughnut economy Arora also takes heart in the power in numbers as the users from the majority world infuse algorithms with everyday aspirations pushing for a new digital order Timely and urgent From Pessimism to Promise makes a deeply compelling case that it is not naive to be optimistic about our digital future On the contrary it is our moral imperative to design with hope
