The 2nd edition is a significantly expanded version with new chapters contributed by special request of the editorial staff. The editors in chief are Professor Wayne Finke of Baruch College City University of New York and Professor Hikaru Kitabayashi of Daito Bunka University. The object was to offer potential readers a more complete introduction to current literature dealing with geolinguistic themes than was the case with the first edition, with Geolinguistics being defined as the study of languages and varieties of language in contact and or conflict. This 2nd edition also contains many small corrections to the original text and it is to be hoped that it will offer a more satisfying experience than was possible with the first edition which due to its historical interest is being kept in print for the time being. *Gregg News Letter & Shorthand Speed Tests*, 1962
