

ENGINEERING GRAPHICS & DESIGN

This textbook "Engineering Graphics and Design" is based on the latest outcome based model curriculum of the AICTE. The book covers complete syllabus catering requirements of all major technical universities and institutes and provides insights into traditional engineering graphics as well as treats of the subject using 2D and 3D design software. It offers technical detail, current standards, real-world examples and clearly explains theory and technique in highly visual and concise format. The topics covered in this book are arranged into 9 chapters comprising self explanatory diagrams and solved examples.

SALIENT FEATURES
