Top-Down Confusion Felecia Nace, 2018-05-24 In today's education climate parents, teachers, and school leaders are often confused about the direction of education and what and how children are learning. For anyone interested in the minefields that young people navigate in schools today, this book exposes the ills, questions the status quo, engages the reader in a common sense way, and provides solutions to the confusion created in schools. The culmination of over exposure of young children to Lesbian, Gay, Transgender, Queer, Questioning, Intersex, and Asexual (LGBTQIA) topics, the banning of religion in schools, and the runaway train of illegal immigration creates confusion that won't soon pass. In addition, the trend for politicians to appoint superintendents of schools, commissioners of education at state and federal levels, and other education leaders who do not have experience or formal training in education is confusing and disturbing. Would anyone visit a doctor who was not experienced in medicine? It's not likely. There are gray areas in schools that are becoming standard practice. This top-down confusion leads everyone to ask the question: Is Gray the New Pink in Education?

Pervasive Computing Natalia Silvis-Cividjian, 2017-02-15 This book provides a concise introduction to Pervasive Computing, otherwise known as Internet of Things (IoT) and Ubiquitous Computing (UbiComp), which addresses the seamless integration of computing systems within everyday objects. By introducing the core topics and exploring assistive pervasive systems which infer their context through pattern recognition, the author provides readers with a gentle yet robust foundation of knowledge to this growing field of research. The author explores a range of topics including data acquisition, signal processing, control theory, machine learning, and system engineering, explaining with the use of simple mathematical concepts the core principles underlying pervasive computing systems. Real life examples are applied throughout, including self-driving cars, automatic insulin pumps, smart homes, and social robotic companions, with each chapter accompanied by a set of exercises for the reader. Practical tutorials are also available to guide enthusiastic readers through the process of building a smart system using cameras, microphones, and robotic kits. Due to the power of MATLAB™, this can be achieved with no previous programming or robotics experience. Although Pervasive Computing is primarily for undergraduate students, the book is accessible to a wider audience of researchers and designers who are interested in exploring pervasive computing further.

A Critical Discourse Analysis of Family Literacy Practices Rebecca Rogers, 2003-06-20 In this groundbreaking cross-disciplinary book, Rebecca Rogers explores the complexity of family literacy practices through an in-depth case study of one family, the attendant issues of power and identity, and contemporary social debates about the connections between literacy and society. The study focuses on June Treader and her daughter, Vicky, urban African Americans labeled as low income and low literate. Using participant observation, ethnographic interviewing, photography, document collection, and discourse analysis, Rogers describes and explains the complexities of identity, power, and discursive practices that June and Vicky engage with in their daily life as they proficiently, critically, and strategically negotiate language and literacy in their home and community. She explores why

despite their proficiencies neither June or Vicky sees themselves as literate and how this and other contradictions prevent them from transforming their literate capital into social profit This study contributes in multiple ways to extending both theoretically and empirically existing research on literacy identity and power Critical discourse analysis The analytic technique of critical discourse analysis is brought into the area of family literacy The detailed explanation interpretation and demonstration of critical discourse analysis will be extremely helpful for novices learning to use this technique This is a timely book for there are few ethnographic studies exploring the usefulness and limits of critical discourse analysis Combines critical discourse analysis and ethnography This new synthesis which is thoroughly illustrated offers an explanatory framework for the stronghold of institutional discursive power Using critical discourse analysis as a methodological tool in order to build critical language awareness in classrooms and schools educators working toward a critical social democracy may be better armed to recognize sources of inequity Researcher reflexivity Unlike most critical discourse analyses throughout the book the researcher and analyst is clearly visible and complicated into the role of power and language This practice allows clearer analysis of the ethical moral and theoretical implications in conducting ethnographic research concerned with issues of power A critical perspective on family literacy Many discussions of family literacy do not acknowledge the raced classed and gendered nature of interacting with texts that constitutes a family s literacy practices This book makes clear how the power relationships that are acquired as children and adults interact with literacy in the many domains of a family s literacy lives A Critical Discourse Analysis of Family Literacy Practices Power In and Out of Print will interest researchers and practitioners in the fields of qualitative methodology discourse analysis critical discourse studies literacy education and adult literacy and is highly relevant as a text for courses in these areas [PC Mag](#) ,1992-10-27 PCMag.com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology *Math Horizons* ,1996 **Ladies' Home Companion** ,1927 **The Farmers' Advocate and Home Magazine** ,1928 **CD-ROMs in Print** ,2002 **Who's who in America** ,1930 [Vogue](#) ,1925 **Congressional Record** United States.
