web find out more about magnetic fields what is an electromagnet apart from the magnetic moments of the electrons the other thing that produces magnetic fields are electric charges this discovery back in the 1830s has been one of the most important in history as it created the link between magnetism and electricity

**magnetism wikipedia** - Jan 08 2023

web e magnetism is the class of physical attributes that occur through a magnetic field which allows objects to attract or repel each other because both electric currents and magnetic moments of elementary particles give rise to a magnetic field magnetism is one of two aspects of electromagnetism

magnetism definition examples physics facts britannica - Nov 06 2022

web aug 2 2023 fundamentals basic to magnetism are magnetic fields and their effects on matter as for instance the deflection of moving charges and torques on other magnetic objects evidence for the presence of a magnetic field is the magnetic force on charges moving in that field the force is at right angles to both the field and the velocity of the
