Humanism, Drama, and Performance Hana Worthen, 2020-10-13 This book examines the appropriation of theatre and theatrical performance by ideologies of humanism in terms that continue to echo across the related disciplines of literary drama theatre and performance history and studies today From Aristotle onward theatre has been regulated by three strains of critical poesis the literary segregating theatre and the practices of the spectacular from the humanizing work attributed to the book and to the internality of reading the dramatic approving the address of theatrical performance only to the extent that it instrumentalizes literary value and the theatrical assimilating performance to the conjunction of literary and liberal values These values have been used to figure not only the work of theatre but also the propriety of the audience as a figure for its socializing work along a privileged dualism from the aestheticized ensemble harmonizing actor character and spectator to the essentialized drama to the politicized assembly theatre understood as an agonistic gathering
