Getting Started in Stock Analysis, Illustrated Edition Michael C. Thomsett,2014-12-09 Robust analysis shows a more complete picture of market behavior Getting Started in Stock Analysis is an exciting visual guide to both technical and fundamental analysis for the private investor Rather than addressing the benefits of fundamental or technical analysis author and trader Michael C Thomsett draws upon three decades experience in the stock market to demonstrate why traders need to employ both Readers will learn how both methods are different aspects of the same cause and effect within the market and

how exploiting one method at the expense of the other results in an incomplete picture of the true market behavior Coverage includes a full explanation of the range of indicators necessary to create a working system of analysis that anyone can perform on their own helping long and short term investors alike improve selection and confirm investment decisions Charts of actual listed companies demonstrate how these techniques are applied in a real trading environment Investors and traders are constantly seeking the magic bullet for identifying profitable trades and timing both entry and exit Since the 1940s the average holding period has fallen from eight years to eight weeks making fundamental and technical analysis more challenging This book describes how combining these approaches can compensate for the modern market environment to produce a more accurate and profitable analysis Choose better stocks and other securities Improve entry and exit while managing risk Develop more robust analysis skills Blend fundamental and technical analysis techniques The reduced cost of trading ease of access via the Internet and changes in the overall culture of the stock market have increased the pace and volume of trading more than ever before In this environment sharp analysis becomes ever more critical Getting Started in Stock Analysis is the visual guide to more confident investing The British National Bibliography Arthur James Wells,2009 Meteorologische Zeitschrift ,2009 Against the Grain ,2006 **Library & Information Science Abstracts** ,2006
