Special Education The authors of this introductory text have a vision for special education to equip general and special
education teachers with the principles values and teaching practices that support the education of the majority of students
with disabilities in general education programs Beginning with a thorough review of the principles that undergird IDEA and
the process of nondiscriminatory evaluation the authors explore the teaching and collaborative processes necessary for
implementing best practices and Individuals with Disabilities Education Act of 1997 Using a categorical approach the authors
highlight real students with real disabilities and use their stories as a vehicle for describing the characteristics causes and
challenges that people with exceptionalities face and that both general and special education teachers must consider when
making decisions about how where and what to teach Addison-Wesley Secondary Math, 1996
