Crosby vs. Ovechkin vs. McDavid vs. Gretzky Jason M. Walker, 2019-12-15 Hockey has long been one of most prominent sports in North America Since its rise in popularity in the twentieth century many have asked who is the greatest hockey player of all time From National Hockey League legends like Wayne Gretzky to modern day stars like Sidney Crosby Alexander Ovechkin and Connor McDavid many players have written their name into the record books Whether by goals scored or championships won each has made their case on the ice In this engaging and unique volume the argument is made using math and statistical analysis to answer the age old questions of greatness

Economic Analysis of the Digital Economy Avi Goldfarb, Shane M. Greenstein, Catherine Tucker, 2015-05-08 There is a small and growing literature that explores the impact of digitization in a variety of contexts but its economic consequences surprisingly remain poorly understood This volume aims to set the agenda for research in the economics of digitization with each chapter identifying a promising area of research Economics of Digitization identifies urgent topics with research already underway that warrant further exploration from economists In addition to the growing importance of digitization itself digital technologies have some features that suggest that many well studied economic models may not apply and indeed so many aspects of the digital economy throw normal economics in a loop Economics of Digitization will be one of the first to focus on the economic implications of digitization and to bring together leading scholars in the economics of digitization to explore emerging research
