advance foretell or prophesy what is likely to happen in the future We project when we calculate the numerical value
associated with a future event We forecast a special kind of prediction on data of past happenings to generate or cast data
for future by relying happenings Generally one predicts yes no a war an earthquake or the outcome of a chess match projects
the value of the GNP or of unemployment and forecasts the weather and more scientifically the economic trends Prediction
projection and forecasting must be constrained in time and space when and where Often the accuracy of a forecast is of
