Bitcoin for Boomers - Bitcoin for Seniors: Ditch the Debt, Ditch the Dollar, Discover Real Wealth Steve Stylz, 2025-10-25

The world we grew up in is gone. For decades, Baby Boomers believed in steady pensions, reliable savings, and the promise that Social Security would provide security in our later years. But those pillars are now crumbling under the weight of inflation, endless government debt, and a financial system that enriches the few while hollowing out the many. What once felt solid is now quicksand. Bitcoin for Boomers is not a get-rich-quick scheme or a technical manual. It is a roadmap to financial freedom in a time of great uncertainty. Written with Boomers in mind, this book strips away the jargon and fear, showing in plain language why Bitcoin is not just speculation but the most important form of money ever invented. It is scarce, incorruptible, and built for a future where individuals take back control of their wealth. [The Weekly Notes](#) Frederick

Pollock, 1910 [The Weekly Underwriter](#), 1924 [Western Weekly Reports](#), 1920 **Grand Prix** Will Buxton, 2024-08-13
NEW YORK TIMES BESTSELLER A thrilling illustrated history of Formula 1 racing from its fascinating origins and inner workings to the top drivers of the twentieth century and today by a celebrated motorsports broadcaster and star of Formula 1 Drive to Survive. A valuable and welcome addition to the library of any lifelong F1 fan as well as for any curious individual new to the world of F1. Mario Andretti: Over its seventy-plus years of history, Formula 1 racing has grown from a niche motorsport with just a few events per season into a global phenomenon followed by more than a billion fans. With just twenty drivers competing at speeds of over 220 miles per hour on more than twenty of the world's most glamorous and challenging racetracks, Formula 1 is the ultimate test of machine and humankind. To become a champion means to be counted among the most elite athletes the world has ever known. As the lead commentator on Netflix's breakout series Formula 1 Drive to Survive, Will Buxton has emerged as the most prominent journalist covering the sport for the new generation of fans. Grand Prix chronicles the past, present, and future of F1 in an engaging and easily digestible format. You'll be introduced to historical heroes such as Formula 1's very first world champion Giuseppe Farina through every decade and every champion of the sport, including the iconic Lewis Hamilton and reigning champion Max Verstappen. this level of detail and with such vibrancy Toto Wolff Even if you think you know everything there is to know about Formula 1 you ll learn something within these pages GP Racing Formula 1 might only have twenty drivers in its most elite competition but each is supported by a world class team of mechanics engineers strategists party planners and much more In On the Grid journalist Luke Smith takes us behind the scenes of the past present and future of the sport telling its story through the eyes of the people who create it including the all important fans We see thrilling drama cutting edge technology the stress and the glamour Smith takes us to the starting grid full of engine fumes and sweat to yacht parties in Monaco and to the pit lane for the critical mid race decisions We see how a fifty pence screw in the wrong place could cause a 15m car to break down how F1 has influenced not just the cars we drive but life saving medical equipment and even croissants how you create a Grand Prix track from scratch On the Grid shows us what it s like to work in a high pressure and inherently dangerous sport showcases the personalities that give it such drama and intrigue examines how the sport is addressing its critics around inclusivity and environmental impact For both long time fans and newcomers what results is the definitive access all areas account of what makes F1 stand alone in world sport
