**Methodologies** Edmund K. Burke,Graham Kendall,2013-10-18 The first edition of Search Methodologies Introductory  
Tutorials in Optimization and Decision Support Techniques was originally put together to offer a basic introduction to the  
various search and optimization techniques that students might need to use during their research and this new edition  
continues this tradition Search Methodologies has been expanded and brought completely up to date including new chapters  
covering scatter search GRASP and very large neighborhood search The chapter authors are drawn from across Computer  
Science and Operations Research and include some of the world s leading authorities in their field The book provides useful  
guidelines for implementing the methods and frameworks described and offers valuable tutorials to students and researchers  
in the field As I embarked on the pleasant journey of reading through the chapters of this book I became convinced that this  
is one of the best sources of introductory material on the search methodologies topic to be found The book s subtitle  
Introductory Tutorials in Optimization and Decision Support Techniques aptly describes its aim and the editors and  
contributors to this volume have achieved this aim with remarkable success The chapters in this book are exemplary in giving  
useful guidelines for implementing the methods and frameworks described Fred Glover Leeds School of Business University  
of Colorado Boulder USA The book aims to present a series of well written tutorials by the leading experts in their fields  
Moreover it does this by covering practically the whole possible range of topics in the discipline It enables students and  
practitioners to study and appreciate the beauty and the power of some of the computational search techniques that are able  
to effectively navigate through search spaces that are sometimes inconceivably large I am convinced that this second edition
