Good Meal Prep Ideas For Beginners and Dummies Barbara Dawson, 2020-08-18 Meal prepping is meal prepping a meal or recipe then portioning it out to grab and go meals for later If you've ever had your leftovers from dinner to take with you for lunch then next time you've had mini meal prepped Generally though meal prepping refers to preparing 3-7 days worth of food at a time Think of it like making your lunches for the week all at once instead of making your lunch throughout the week You can use this same technique for breakfast lunch dinner and snacks Meal prepping prevents food waste and reduces time spent outside your home whether the plan is a diet or a budget When making your daily food question meal prep will allow you to eat healthy meals without having to do it each day to reduce meal prep time for everyone It is good for the value convenience and efficiency more than anything else With meal prepping you generally eat the same thing for a few days in a row so you don't have to deal with leftovers or get bored with food Meal prepping is for you If having nutritious food that is maximizing your time and budget is more valuable to you than doing something different every day meal prep is your ticket I've generally not seen meal prep for the majority or maybe one other person do a whole meal Meal prep for a whole family would be quite difficult but the result would be a meal that is stored in the refrigerator for a slow day in the week In addition to the way food is packed the individual nuances of your refrigerator can impact the quality of your refrigerated meal So the flavor is acceptable having a nice texture and flavor will be important to the eater Always begin with the refrigerator guidelines both FDA and the volume
