*Habit Stacking: Goal Setting: How To Set SMART Goals & Achieve All Of Them Now* Scott Green, 2015-06-10 Have you ever noticed that some people seem to be able to get an enormous amount of work done in a single day while others struggle with one task The difference is that people that are able to get a lot of things done know what is involved in getting important things done and they know how to create an action plan to achieve whatever they want to achieve whether that is throughout the course of a single day or something that is more cumulative over the course of a lifetime It is related to goal setting and more importantly to habit stacking They have essentially figured out a way to live

their lives that helps them be more productive and realize the things that are truly important to them while others continue to struggle. People that figure out the secret to achieving this are able to live out their dreams as opposed to struggling on an almost daily basis just to get by. The good news is that it is really not all that difficult. It simply requires that you learn how to set up a list of things to do every day and then take action in order to accomplish everything on that list. The most important thing is that you have to learn how to do all of this even when you are not motivated.
