**TRIPLE HELIX MODEL: Role of Industry, Government and Academia** May Ifeoma Nwoye, Dr. Saji George, 2026-01-20 THE EMERGENCE OF THE KNOWLEDGE BASED ECONOMY In the industrial era the primary engines of social and economic organisations were government and the private sector Today we have entered a great transformation of the 21st century the transition to a knowledge society where innovation is no longer confined to a single institutional

sphere This book explores the Triple Helix a framework that captures the dynamic non linear interactions between three critical strands namely the university the industry and government thus encapsulating Three Spheres in One Ecosystem The Triple Helix model as a trilateral network links the university private sector and government First theorized by Henry Etzkowitz and Loet Leydesdorff the Triple Helix highlights how these three sectors are becoming increasingly interdependent The University Traditionally focused on knowledge creation and dissemination has now upgraded to entrepreneurial institutions acting as a primary source for regional innovation and new firms The Private Sector Industry acts as the locus of production and commercialization translating academic research into marketable products and services while increasingly investing in its own Research and Development The Government Shifts from a purely regulatory role to a public venture capitalist providing the stable contractual relations policy frameworks and seed funding necessary to foster collaborative networks Why this Book Matters Innovation is not a solo endeavor it emerges from the creative synergies at the intersections of other spheres However the path is not always smooth This book also examines how the institutions reorganize themselves create hybrid organizations like science parks and incubators and overcome systemic barriers to achieve sustainable growth Whether you are a policymaker an academic or industry leader this book serves as a guide to navigating the complex overlay of communication and collaboration that defines the modern innovation landscape

*Proceedings of the International Conference on Business, Economics, Social Sciences, and Humanities - Humanities and Social Sciences Track (ICOBEST-HSS 2024)* Lia Warlina, Senny Luckyardi, 2024-07-22 This is an Open Access Book The International Conference on Business Economics Social Sciences and Humanities ICOBEST is hosted annually by Universitas Komputer Indonesia UNIKOM ICOBEST aims to facilitate the exchange of knowledge and experiences among academia researchers and scholars fostering optimism and revitalization within the scientific framework ICOBEST provides a unique opportunity for participants to network share ideas and present their research findings to an international audience Encouraging discussions on the latest innovations emerging trends and practical challenges in business economics social sciences and humanities This year UNIKOM will held the conference in hybrid format which means interested authors can participate in this conference either in person or through online means
