Classical Concert Studies Martin Tröndle, 2020-09-01. *Classical Concert Studies: A Companion to Contemporary Research and Performance* is a landmark publication that maps out a new interdisciplinary field of Concert Studies, offering fresh ways of understanding the classical music concert in the twenty-first century. It brings together essays, research articles, and case studies from scholars and music professionals, including musicians, music managers, and concert designers. Gathering both historical and contemporary cases, the contributors draw on approaches from sociology, ethnology, musicology, cultural studies, and other disciplines to create a rich portrait of the classical concert's past, present, and future. Based on two earlier volumes published in German under the title *Das Konzert: The Concert* and with a selection of new chapters written for the English edition, this companion enables students, researchers, and practitioners in the classical and contemporary music fields to understand this emerging field of research, go beyond traditional disciplinary boundaries and methodologies, and spark a renaissance for the classical concert.

Generation Z Corey Seemiller, Meghan Grace, 2018-11-02. No other generation in history has received as much coverage as the Millennial generation. Books, Google searches, blogs, and news articles are everywhere about them. Yet Generation Z is comprised of our youth and young adults today and has received very little attention comparatively. Those in Generation Z are among our youngest consumers, students, colleagues, constituents, voters, and neighbors. Being able to better understand who they are and how they see the world can be helpful in effectively working with, teaching, supervising, and leading them. *Generation Z: A Century in the Making* offers insight into nearly every aspect of the lives of those in Generation Z, including a focus on their career aspirations, religious beliefs and practices, entertainment and hobbies, social concerns, relationships with friends and family, health and wellness, money management, civic engagement, communication styles, political ideologies, technology use, and educational preferences. Drawing from an unprecedented number of studies with higher education research institutions, market research firms such as Pew and Census, other generational researchers, and industry leaders, this is the authoritative, defining work on Generation Z that market researchers, consumer behaviour specialists, and employers sorely need, and it is a fascinating read for anyone interested in
