*Moral Relativism* Professor Steven Lukes, 2008-07-22 Moral relativism attracts and repels What is defensible in it and what is to be rejected Do we as human beings have no shared standards by which we can understand one another Can we abstain from judging one another's practices Do we truly have divergent views about what constitutes good and evil virtue and vice harm and welfare dignity and humiliation or is there some underlying commonality that trumps it all These questions turn up everywhere from Montaigne's essay on cannibals to the UN Declaration of Human Rights to the debate over female genital mutilation They become ever more urgent with the growth of mass immigration the rise of religious extremism the challenges of Islamist terrorism the rise of identity politics and the resentment at colonialism and the massive disparities of wealth and power between North and South Are human rights and humanitarian interventions just the latest form of cultural imperialism By what right do we judge particular practices as barbaric Who are the real barbarians In this provocative new book the distinguished social theorist Steven Lukes takes an incisive and enlightening look at these and other challenging questions and considers the very foundations of what we believe why we believe it and whether there is a profound discord between us and them

**Rationality, Relativism and the Human Sciences** Joseph Margolis, A.S. Krausz, R. Burian, 2012-12-06 The Greater Philadelphia Philosophy Consortium was launched in the early eighties It began during a particularly lean period in the American economy But its success is linked as much to the need to be in touch with the rapidly changing currents of the philosophical climate as with the need to insure an adequately stocked professional community in the Philadelphia area faced perhaps permanently with the threat of increasing attrition The member schools of the Consortium now include Bryn Mawr College the University of Pennsylvania Temple University and Villanova University that is the schools of the area that offer advanced degrees in philosophy The

philosophy faculties of these schools form the core of the Consortium which offers graduate students the instructional and library facilities of each member school The Consortium is also supported by the associated faculties of other regional schools that do not offer advanced degrees notably those at Drexel University Haverford College La Salle University and Swarthmore College both philosophers and members of other departments as well as interested and professionally qualified persons from the entire region The affiliated and core professionals now number several hundreds and the Consortium's various ventures have been received most enthusiastically by the academic community At this moment the Consortium is planning its fifth year of what it calls the Conferences on the Philosophy of the Human Studies

*The Diversity of Morals* Steven Lukes, 2025-09-09 How to make sense of the divergence between philosophers' quest for a single morality and social scientists' assumption that there are multiple moralities When we speak of morals what are we speaking of Is morality singular as many philosophers tend to assume even if they don't agree on what it is or are there multiple moralities which social scientists notably anthropologists study In *The Diversity of Morals* Steven Lukes brings together these differing perspectives Drawing on philosophy sociology social anthropology psychology and political theory Lukes considers what the moral domain includes and what it excludes how what is moral differs from what is conventional or customary in different contexts whether morality is unified or a series of fragments and if there is a diversity of morals what that diversity consists of Lukes looks both ways toward philosophers' quest for a single best answer to the question of morality and toward sociologists and anthropologists' assumption that there are several even many even very many answers to make sense of their divergence He traces the two approaches back to their beginnings linking them to the differences between the ideas of David Hume Johann Gottfried Herder and Adam Smith Lukes examines how we went from viewing the social world as us versus them to thinking of morality as universal envisioning shared humanity and the sacredness of the human person and what prevents this vision from being realized Considering the breakdown of moral constraints in the perpetration of mass atrocities Lukes asks if there are phenomena that are beyond moral justification And he raises this crucial question in light of the vast variation that history and the ethnographic record display how wide and how deep is the diversity of morals

**The Meanings of Rights** Costas Douzinas, Conor Gearty, 2014-05-01 Does the apparent victory, universality and ubiquity of the idea of rights indicate that such rights have transcended all conflicts of interests and moved beyond the presumption that it is the clash of ideas that drives culture Or has the rhetorical triumph of rights not been replicated in reality The contributors to this book answer these questions in the context of an increasing wealth gap between the metropolitan elites and the rest a chasm in income and chances between the rich and the poor and walls which divide the comfortable middle classes from the underclass Why do these inequalities persist in our supposed human rights abiding societies In seeking to address the foundations, genealogies, meaning and impact of rights this book captures some of the energy, breadth, power and paradoxes that make deployment of the language of human rights such an essential but changeable part of so many of our

contemporary discourses *Visions of Culture and the Models of Cultural Sciences*, 2023-12-28 *Friends and Other Strangers* Richard B. Miller, 2016-07-05 *Friends and Other Strangers* argues for expanding the field of religious ethics to address the normative dimensions of culture interpersonal desires friendships and family and institutional and political relationships Richard B Miller urges religious ethicists to turn to cultural studies to broaden the range of the issues they address and to examine matters of cultural practice and cultural difference in critical and self reflexive ways *Friends and Other Strangers* critically discusses the ethics of ethnography ethnocentrism relativism and moral criticism empathy and the ethics of self other attunement indignation empathy and solidarity the meaning of moral responsibility in relation to children and friends civic virtue war and alterity the normative and psychological dimensions of memory and religion and democratic public life Miller challenges distinctions between psyche and culture self and other and uses the concepts of intimacy and alterity as dialectical touchstones for examining the normative dimensions of self other relationships A wholly contemporary global and interdisciplinary work *Friends and Other Strangers* illuminates aspects of moral life ethicists have otherwise overlooked *Believing and Acting* G. Scott Davis, 2012-03-15 How should religion and ethics be studied if we want to understand what people believe and why they act the way they do In the 1980s and 90s postmodernist worries about led to debates that turned on power truth and relativism Since the turn of the century scholars impressed by cognitive science have introduced concepts drawn from evolutionary biology neurosciences and linguistics in the attempt to provide naturalist accounts of religion Deploying concepts and arguments that have their roots in the pragmatism of C S Peirce *Believing and Acting* argues that both approaches are misguided and largely unhelpful in answering the questions that matter What did those people believe then How does it relate to what these people want to do now What is our evidence for our interpretations Pragmatic inquiry into these questions recommends an approach that questions grand theories advocates a critical pluralism about religion and ethics that defies disciplinary boundaries in the pursuit of the truth Rationality on a pragmatic approach is about solving particular problems in medias res thus there is no hard and fast line to be drawn between inquiry and advocacy both are essential to negotiating day to day life The upshot is an approach to religion and ethics in which inquiry looks much like the art history of Michael Baxandall and advocacy like the art criticism of Arthur Danto *Religious Fundamentalisms and the Human Rights of Women* C. Howland, 1999-09-03 Dialogue on the conflict between religious fundamentalism and women s rights is often stymied by an all or nothing approach fundamentalists claim of absolute religious freedom while some feminists dismiss religion entirely as being so imbued with patriarchy as to be eternally opposed to women s rights This ignores though the experiences of religious women who suffer under fundamentalism and fight to resist it perceiving themselves to be at once religious and feminist In *Religious Fundamentalisms and the Human Rights of Women* Howland provides a forum for these different scholars both religious and nonreligious to meet and seek common ground in their fight against fundamentalism Through an examination of international
