Hearts Between Worlds Hearts Between Worlds, 2025-10-02 Hearts Between Worlds Romance and Fantasy in Contemporary Arabic Literature Where passion meets imagination a new kind of storytelling is born Hearts Between Worlds explores the rise of Romantasy the fusion of romance and fantasy in both global and contemporary Arabic literature From the timeless pull of love stories to the limitless horizons of magical worlds this book reveals how emotion and imagination together create narratives that captivate readers everywhere It traces the roots of romance as a narrative force examines fantasy as an escape from reality and shows how the union of the two has become one of today's most powerful literary trends Blending literary analysis with cultural insight the book journeys through international bestsellers by authors like Sarah J Maas and Rebecca Yarros while also uncovering resonances in Arabic works by writers such as Ahlam Mosteghanemi and Youssef El Sebai At its heart lies a call to Arab authors and readers alike to embrace this genre to draw on the richness of heritage and myth and to create stories that stand proudly on the global stage while carrying an unmistakable Arab voice Hearts Between Worlds is more than literary criticism it is an invitation to dream to feel and to imagine It speaks to anyone who believes that love and fantasy together can transform the act of reading into a journey of discovery wonder and unforgettable emotion

The Global ISBN Handbook Azhar ul Haque Sario, 2025-10-30 Have you ever wondered why that 13 digit number on the back of a book costs 125 in the United States but is completely free in Canada and India This book The Global ISBN Handbook is your 2025 guide to the International Standard Book Number It explains everything about this global fingerprint for books The ISBN is the most important cornerstone of the publishing industry It started as a simple warehouse tool in the 1960s Now it is a complex digital identifier used in over 200 countries This handbook deconstructs the entire system It uses 15 distinct national case studies to do this You will learn how the old 10 digit system changed to the new 13 digit one We break down the five parts of the ISBN from the Bookland prefix to the final check digit The book explores the global governance framework starting with the International ISBN Agency Then it dives deep into how different countries run their systems You'll see the privatized high cost model in the United States You'll compare it to Canada's free government run system We explore the industry led models in Brazil and Germany We look at government run systems in Mexico and India We even cover the unique case of China where the ISBN is not a simple identifier but a state controlled publication license The book also examines the systems in the UK France Russia Japan Australia South Africa Nigeria and Egypt Many books and websites can tell you how to get an ISBN This handbook is the only resource that explains why the process is so different everywhere you look It moves beyond a simple how to and provides a true global analysis It directly compares the privatized for profit models in the US and UK against the free public good systems in Canada and South Africa You won't just learn the price you will understand the cultural policies market structures and legal philosophies that shape that price This book shows how the ISBN is a global mirror It reveals how a simple number can be a commercial product in

one nation a tool of cultural policy in another and an instrument of state control in a third This comparative insight is the missing piece for any author publisher or researcher trying to navigate the complex international publishing market
