Kuss, 2019 The internet is so central to everyday life that it is impossible to contemplate life without it From finding romance to conducting business receiving health advice shopping banking and gaming the internet opens up a world of possibilities to people across the globe Yet for all its positive attributes it is also an environment where we witness the very worst of human behaviour cybercrime election interference fake news and trolling being just a few examples What is it about this unique environment that can make people behave in ways they wouldn't contemplate in real life Understanding the psychological processes underlying and influencing the thinking interpretation and behaviour associated with this online interconnectivity is the core premise of Cyberpsychology The Oxford Handbook of Cyberpsychology explores a wide range of cyberpsychological processes and activities through the research and writings of some of the world's leading cyberpsychology experts The book is divided into eight sections covering topics as varied as online research methods self presentation and impression management technology across the lifespan interaction and interactivity online groups and communities social media health and technology video gaming and cybercrime and cybersecurity The Oxford Handbook of Cyberpsychology will be important reading for those who have only recently discovered the discipline as well as more seasoned cyberpsychology researchers and teachers

**Left to Their Own Devices** Julie M. Albright, 2019 Digital natives are hacking the American Dream Young people brought up with the Internet smartphones and social media are quickly rendering old habits and norms a distant memory creating the greatest generation gap in history In this eye opening book digital sociologist Julie M Albright looks at our device obsessed society and the many ways in which the post World War II American Dream is waning for the Millennial generation Albright notes that in the former age of traditional media dominated by three major TV networks and the national print media values were more harmonized and time synchronized Today with a deluge of information available 24/7 we are experiencing a sort of digital tribalism with people coalescing inside of increasingly fragmented informational echo chambers Digital media allows bad actors to enlarge the rifts between these siloed tribes in divide and conquer fashion frothing up fears by propagating fake news and fake people online What are other effects of hyper connectivity coupled with disconnection from stabilizing social structures Albright sees both positives and negatives On the one hand mobile connectivity has given digital nomads the unprecedented opportunity to work or live anywhere On the other hand new threats are emerging including cyberbullying and the ability to radicalize marginalized youth decreased physical exercise increased isolation anxiety and loneliness ephemeral relationships fragmented attention spans lack of participation in community activities and the political process and detachment from the calm of nature or the refuge of religion In this time of rapid global technologically driven change this book offers fresh insights into the effects of

always on devices on the family community business and society at large
