A Comprehensive Guide to Chemistry Samuel Minghui Li, 2016 Cambridge AS Level Chemistry 9701 Azhar Ul Haque Sario, 2023-06-30 This book titled Cambridge AS Level Chemistry 9701 is a comprehensive reference book designed to aid students in their revision for the Cambridge AS Level Chemistry 9701 exam. The author has based the content on their interpretation and understanding of the syllabus and past exam questions and has organized the material using headings and subheadings from the official syllabus to provide a concise and accessible format. The book includes a broad range of topics such as atoms and ions, bonding, chemical equilibria, organic compounds, and spectroscopy. It covers fundamental concepts such as the mole concept, stoichiometry, and chemical bonding, as well as advanced topics such as organic reactions, isomerism, and polymerization. Importantly, this book is not intended to replace official textbooks or study materials but rather supplements them to provide a summary of key concepts in an easy-to-digest format. It should be noted that the author did not copy any content from the official textbooks or study materials but instead developed their own material to supplement the official course content.
