Revenue Management in the Age of Artificial Intelligence Sourou Meatchi,2025-09-30 Today Revenue Management is a key practice in the air transport tourism and hotel industries Originally known as Yield Management Revenue Management has gradually evolved into an integral revenue optimization strategy for businesses characterized by capacity constraints and fluctuating demand Revenue Management in the Age of Artificial Intelligence explores through numerous case studies and concrete examples the principles models and applications of Revenue Management while addressing the ethical challenges and prospects offered by digital technology and artificial intelligence This book is aimed at professionals students researchers and anyone wishing to understand the dynamics of price management in a constantly changing economic environment It highlights the importance of transparency and fairness in maintaining consumer confidence while demonstrating that Revenue Management is much more than a simple pricing technique it is an essential strategic tool for many service companies   **AI Nation Rising** Michael T. Murphy,2026-02-26 The definitive technical and strategic reference for AI deployment in defense governance and critical industrial systems At 1 700 pages and over a million words it equips defense contractors policymakers law enforcement and cybersecurity professionals with the systems knowledge and strategic frameworks to deploy AI where the consequences of failure are highest We are living through the most consequential technological transition in modern history Artificial intelligence is no longer confined to research laboratories it is actively reshaping national defense doctrine democratic governance law enforcement and industrial civilization Nations that deploy AI with strategic clarity will define the global order Those that do not will navigate a world shaped by decisions they had no part in making AI Nation Rising is the definitive technical and strategic reference for the practitioners planners and policymakers who bear responsibility for getting this right At 1 700 pages spanning thirty one chapters it is the most comprehensive treatment of mission critical AI deployment ever assembled in a single work written for defense contractors intelligence analysts government policymakers law enforcement investigators cybersecurity professionals and industrial leaders operating at the intersection of technology and consequence The book opens with rigorous grounding in foundational AI systems supervised unsupervised and reinforcement learning paradigms transformer based large language models distributed data infrastructure and privacy preserving techniques including federated learning and differential privacy For a defense contractor assessing platform capabilities a policymaker evaluating vendor claims or a systems integrator designing classified infrastructure this foundation is not academic It is operational Part III the heart of the book provides exhaustive coverage of AI in defense national security forensic science and law enforcement Defense professionals will find authoritative treatment of strategic AI infrastructure cyber defense and information warfare counter disinformation systems and critical infrastructure protection Military intelligence chapters address the full ISR pipeline from satellite imagery automation and SIGINT processing to biometric identification and HUMINT support Tactical applications cover autonomous combat systems

automatic target recognition swarm coordination and battlefield logistics The naval chapters address Aegis combat system integration submarine detection anti ship missile defense and autonomous surface and underwater vehicles Law enforcement professionals will find deep coverage of digital forensics cryptocurrency crime investigation crime scene reconstruction trace evidence analysis and judicial AI including deepfake detection and evidence authentication Parts IV and V extend this rigor across democratic governance biomedical AI earth sciences space exploration manufacturing and financial services from election integrity monitoring and political risk modeling to drug discovery pandemic response precision agriculture geospatial intelligence and regulatory compliance Throughout the book treats deployment challenges integration constraints and failure modes as central subjects not footnotes Each domain includes analysis of near term evolution trajectories reflecting the reality that today s architectural decisions will shape AI capability for a decade The closing section addresses ethics global regulatory frameworks and societal implications with the same analytical seriousness brought to every technical chapter AI Nation Rising is written in full recognition of the stakes The decisions being made today about AI in defense governance and critical infrastructure will shape the security and sovereignty of nations for generations and they deserve to be informed by the best available understanding of what these technologies can do and what it genuinely takes to deploy them where failure is measured not in wasted resources but in lives freedoms and the integrity of civilized society **AI and Electoral Campaigns** Rafael Rubio Núñez,Frederico Franco Alvim,Vitor de Andrade Monteiro,2025-09-22 Offers a groundbreaking analysis of how artificial intelligence is reshaping the dynamics of political communication and electoral competition AI and Electoral Campaigns delivers a timely in depth exploration of how artificial intelligence is disrupting the foundational processes of electoral democracy As AI technologies increasingly shape political communication this much needed book equips readers to identify and critically assess the emerging threats to transparency fairness and legitimacy in democratic elections Drawing on real world cases from across the globe including Argentina India the U S and Slovakia the authors present an empirically grounded taxonomy of AI related threats including deepfakes firehosing cognitive hacking astroturfing and psychographic microtargeting AI and Electoral Campaigns fills a critical gap in the literature by addressing not only the political and communicative dimensions of AI s role in elections but also its legal and ethical implications The authors propose a clear framework to evaluate the impact of AI through principles based analysis and present comparative insights into the regulatory responses emerging in diverse jurisdictions With a structured approach that spans historical context threat classification ethical considerations and legal strategies the book focuses on the systemic challenges AI poses to electoral integrity A foundational guide for navigating the next phase of democratic resilience in the digital age AI and Electoral Campaigns Offers a global analysis of the new vulnerabilities and systemic risks AI introduces to democratic processes Features technical legal and practical insights from experts with frontline electoral policy experience Addresses the role of electoral management bodies EMBs in countering AI driven disinformation Includes an in depth review of current

legislative and regulatory responses from different jurisdictions Highlights underexplored cyberpathologies in political discourse shaped by AI technologies AI and Electoral Campaigns is essential reading for postgraduate and advanced undergraduate students enrolled in courses such as Political Communication Media Law AI and Society and Electoral Law It is suitable for degree programs in Political Science Communication Studies Law and Public Policy and also serves as a key reference for electoral officials policy makers and legal practitioners   Metacognitive Study Skills Mason Ross,AI,2025-02-22 Metacognitive Study Skills explores how understanding and controlling one s own learning processes metacognition can significantly improve academic performance The book investigates the interplay between self awareness which includes recognizing one s learning strengths and weaknesses and effective cognitive strategies Did you know that the cultivation of metacognitive skills is considered the single most impactful strategy for improving academic performance This book argues that metacognition is a teachable skill applicable across various disciplines transforming students into active strategic thinkers The book progresses systematically beginning with a definition of metacognition contrasting it with other cognitive functions It then examines how students can accurately assess their understanding followed by an exploration of cognitive strategies like note taking test taking and time management By bridging psychological theories of learning with practical strategies this book provides actionable advice for students and insights for educators distinguishing itself through its comprehensive yet accessible approach   **Billboard** ,1979-09-29 In its 114th year Billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends   Billboard ,1980-07-12 In its 114th year Billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends   **Path to Singularity** J. Craig Wheeler,2024-11-19 In a rapidly changing world are we on the brink of creating technology that outpaces our ability to control it Astrophysicist J Craig Wheeler former president of the American Astronomical Society takes a critical look at the technological advances shaping our future From artificial intelligence to genetic engineering Wheeler explores how these innovations are interconnected and the potential they hold for humanity s evolution He warns of a future where autonomous machines outsmart us and genetic modifications challenge our very essence With thought provoking insights into the ethical dilemmas we face Wheeler stresses the importance of staying informed and proactive Key Questions Raised by Wheeler Will there be jobs for those willing to work in a future dominated by automation How might social media companies manipulate our decisions potentially stripping us of free will Could AI influence or even dictate our voting behaviors If widespread mental connectivity becomes a reality could we see the emergence of a collective consciousness that erases individuality Have we exhausted Earth s resources and is population control necessary What implications arise if we

solve aging How will society adapt to the challenges of perpetual youth What are the realistic prospects of migrating to space as Earth becomes increasingly inhospitable Our decisions today will determine if we control technology or if it controls us Through an engaging narrative Wheeler not only outlines the challenges but also offers practical advice on how we can retain control over our technological destiny Includes a Foreword by Neil DeGrasse Tyson   InfoWorld ,1982-09-27 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects   *International GIS Sourcebook* ,1993   **English Mechanic and Mirror of Science** ,1902   *World-radio; the BBC Foreign Programme Journal* ,1932   *Software--industry Report* ,1990   *Information Technology in Humanities Scholarship* Pamela Pavliscak,Seamus Ross,Charles Henry,1997 This report surveys the various applications of information technology to research in the humanities and examines challenges that need to be overcome The document is divided into five sections The first section provides a background on changes brought on by technology in the humanities The second section focuses on information technology and scholarship Topics include electronic communication text data images sound combined sources multimedia World Wide Web retroconversion projects original and creative works electronic publication and tools A summary of computer applications in humanities research and future outlook are included at the end of this section New developments and change are discusses in the third section The fourth section outlines institutional changes that are necessary to enable effective technology use in humanities scholarship Topics include training and support project management research infrastructure digital libraries and archives information resources regulatory issues preservation and access funding and humanities support services The fifth section makes recommendations and lists priorities for humanists technical experts librarians and administrators Appendices in the final section include acknowledgments bibliographies and abbreviations and acronyms Contains 37 references AEF   **Biomedical Technology & Human Factors Engineering** ,1983   **Broadcasting, Telecasting** ,1951   *Proceedings of the IRE.* Institute of Radio Engineers,1959   **Documentation Abstracts** ,1991   **Verti-flite** ,1989   **Chicago Tribune Index** ,1996   **Proceedings of the IRE.** ,1959
