**Information Economy Report** United Nations Publications, 2015 Electronic commerce e-commerce is rapidly transforming the way in which enterprises are interacting among each other as well as with consumers and governments Despite important potential benefits businesses and consumers in developing countries were for a long time slow to exploit e-commerce As a result of changes in the evolving

landscape for information and communications technologies ICTs this pattern is now changing and e commerce is growing rapidly in emerging markets and developing economies Against this background this publication revisits the potential opportunities and risks of e commerce and examines how countries can benefit the most from the phenomenon in today s Information Society Using official statistics and private sector data it provides an up to date review of global and regional trends related to e commerce in view of changes in the ICT landscape focusing on developing countries while drawing lessons from developed countries

**Retail Design** Ann Petermans,Anthony Kent,2016-12-01 The late twentieth century saw rapid growth in consumption and the expansion of retailing and services This was reflected in the number and type of stores and locations from regional shopping malls and out of town superstores to concept and flagship stores Retail design became an essential part of its success by creating distinctive brands and formats However the economic recession in the developed world and competition for consumer goods from the developing world has led to a re assessment of the growth led conventions of the retail industry In addition the rapid advance of e commerce and online shopping has created new challenges for physical stores and the communication and distribution of retail brands The book will provide students researchers and practitioners a detailed assessment of retail design taking a distinctive global approach to place design practice and theory in context Chapters are devoted to key issues in the visual and structural contribution of design to retail brands and format development and to the role of design in communication In the course of the book the authors engage with problems of convergence between retailing and other services and between the physical and virtual worlds and also changing patterns of use re use and ownership of retail spaces and buildings Retail Design concerns designers and organisations but also defines its broader contribution to society culture and economy

*The Socioeconomic Evolution of the European Union* Mirela Mărcuț,2016-06-15 This volume explores the role of territory in the creation maintenance and extension of a new type of frontier the electronic frontier from a social and economic point of view It departs from the earlier concepts of borders state social economic ethnic religious etc to investigate the fluidity of borders and their shift towards an axis based paradigm within the free movement European Union Specifically the authors will examine a the metamorphoses of frontiers between the real and the virtual b the importance of space territory in the new information society and the Digital Single Market and c the evolution of electronic frontiers in relation to globalization and the network society What happens when the Internet collides with new social and economic borders In the past borders have been perceived from only a national state point of view Now new types of borders or frontiers such as social economic ethnic religious frontiers can be discussed The electronic frontier is the result of a socio economic analysis of the relationship between the Internet and new frontiers in society and the economy The European space best represents the fluidity of borders and frontiers within this transformation Thus the European Union is the best space to perform research on the electronic frontiers Borders are permeable or impermeable agents of inclusiveness or of exclusion The relations between the real space and the virtual space but also the influence of

the Internet on society lead us to two other important concepts for our research namely digital divide and digital inclusion which define connections or barriers even within the virtual space This book attempts to answer questions such as What types of borders have information and communication technologies created in Europe Which is the foundation of these new frontiers How does the network society function in Europe and which type of frontier prevails This title aims to fill the gap in the literature in the relationship between frontiers and information and communication technologies

**Factors Influencing Customer Satisfaction.**  
**Differences Between E-Commerce and Voice Commerce** Daniel Kraus,2019-06-18 Master s Thesis from the year 2018 in the subject Business economics Trade and Distribution grade 1 3 German Graduate School of Management and Law gGmbH language English abstract This thesis comparatively investigates factors for customers satisfaction in voice commerce and e commerce to assess the emphasis customers place on factors in both channels Voice commerce is a newly evolving electronic commerce channel where customers communicate with dedicated systems on smart speakers mobile phones or other devices using their voice in order to find and order products This thesis identifies customer satisfaction predictors that potentially differ between both channels convenience and transaction process efficiency are based on previous research on chatbot and digital assistant expectations In the area of recommendations recommendation personalization the degree of personalization of product recommendations is identified from previous research The construct of recommendation complexity has been created which is the degree of detail and amount of information recommendations are presented Differences in this domain of computer human interaction are explained by media richness theory an application of neuro ergonomics Data was collected through a survey conducted on the crowdsourcing platform Amazon MTurk The sample consisted of 178 US consumers that had purchased goods using both e commerce and voice commerce Structural equation modeling SEM was used as well as multiple regression analysis for statistical hypotheses testing Two SEM models were created for each voice commerce and e commerce and both models were compared to investigate comparative hypotheses This research enables product managers to recognize which factors of customers satisfaction differ from those in e commerce While developing their voice commerce strategy and system design managers should emphasize convenience factors such as ease of use and ease of understanding as well as an efficient transaction process

*Consumer Behavior on Online Grocery Shopping Adoption. A Quantitative Analysis in the Context of the COVID-19 Pandemic, Contrasting the Markets of Peru and Germany*  
José Alonso Pisfil Manchego,2023-03-13 Master s Thesis from the year 2022 in the subject Business economics Market research grade 1 3 University of applied sciences Munich language English abstract The COVID 19 pandemic raised the demand for online food shopping in traditional Peru and Germany This urged an in depth examination since consumer

attitudes in specific cultural contexts had received little attention Thus this research aims to ascertain the factors that significantly influence Germans and Peruvians intention to use online grocery shopping as well as to identify significant differences between the two countries Two particular research topics serve as the framework for this study which are as follows Are there significant differences in the usage of online grocery shopping between Germans and Peruvians during the COVID 19 pandemic What factors significantly influence Germans and Peruvians online grocery shopping usage during the COVID 19 pandemic As indicated by both research questions this study s primary emphasis is on online grocery shopping behavior during the COVID 19 pandemic that peaked one year ago in the year 2020 yet has persisted worldwide Therefore this study focuses only on empirical data from the COVID 19 outbreak since online grocery shopping in both nations was not a significant event before the pandemic Furthermore there was no previous scientific research on online grocery shopping s behavior in Peruvian literature preventing comparison between the two countries Given that the pandemic s breakout aided in the partial adoption of online grocery shopping in both nations the researcher judged it appropriate to frame both research questions exclusively in terms of the COVID 19 pandemic to capture better the influence of the digital transition that was experienced in 2020
