**The Return of Great Powers** Jim Sciutto, 2026-03-03 WITH A NEW AFTERWORD Instant New York Times Bestseller A Politico Top 10 Most Anticipated Book of 2024 A New York Times Notable Book A New York Times Book Review Editors Choice An absorbing account of 21st century brinkmanship one that should be read by every legislator or presidential nominee sufficiently deluded to think that returning America to its isolationist past or making chummy with Putin is a viable option in today's world The New York Times Book Review Now in paperback the essential book by CNN anchor and chief national security analyst Jim Sciutto identifying a new more uncertain global order with reporting on the frontlines of power from existing wars to looming ones across the globe The fall of the Berlin Wall in 1989 dawned what Francis Fukuyama called The End of History Three decades later Jim Sciutto said on CNN's air as the Ukraine war began that we are living in a 1939 moment The global order as we long have known it is now gone Powerful nations are determined to assert dominance on the world stage And as their push for power escalates a new order is affecting everyone across the globe Russia's invasion of Ukraine is a part of it but in reality this power struggle impacts every corner of our world from Helsinki to Beijing from Australia to the North Pole This is a battle with many fronts in the Arctic in the oceans and across the skies on man made islands and redrawn maps and in tech and cyberspace Through globe spanning exclusive interviews with dozens of political military and intelligence leaders Sciutto defines our times as a return of great power conflict a definitive break between the post Cold War era and an entirely new and uncertain one The Return of Great Powers analyzes a historic and visible shift in real time detailing the realities of this post post Cold War era the increasingly aligned Russian and Chinese governments and the flashpoints of a new global nuclear arms race And it poses a question As we consider uncertain even terrifying outcomes will it be possible for the West and Russia and China to prevent a new World War

**The Dynamics of Asian Economic Development** Hitoshi Hiraoka, Ferdinand C. Maquito, 2024-12-10 One feature of this book is the clarification of the development mechanism of Asia as a regional economy for over half a century based on an Asian Economy Within the Global Economy approach that goes beyond the single country analytical framework The development of emerging economies has caught the world's attention from the Newly Industrializing

Countries or Newly Industrializing Economies of the 1980s to the BRICs entering this century General economics cannot clarify the internal mechanism of the changing of newly industrialized economies led by Asia This book clarifies such regional development structure by focusing on the direct investments of multinational firms and the importance of gradual changes of specific policies adopted by newly industrialized economies Moreover the book concretely deals with the US China trade war and China s Belt and Road Initiative BRI as a problem of Asian economies In so doing the book not only perceives the structural change of the global economy as a structural change from a US centric global economy of the twentieth century to a China centric one but also focuses on the birthing of a new growth frontier in the world economy under a crisis brought about by a war for hegemony between the US and China The investment initiative through China s BRI has prompted the investment competition between Japan and the US which has made even stronger the possibility of giving birth to a new economic frontier in Afro Eurasia Another feature is the consideration of various issues that confront Asian countries in their search for economic development using the Philippines as a case study The analysis of the study points to the importance of a shared growth perspective which is based on an Asian development model and discusses the challenge of overcoming the issues of the economic development model within the region At the same time this book studies the significance and new issues as a region of the economy and overseas policies of attention drawer China

Psychology University and coauthor of the international bestseller *Mindfulness: An Eight Week Plan for Finding Peace in a Frantic World*. *Switch Craft* is a fascinating book packed full of practical advice on how to help you survive and thrive in an uncertain world. Written by a leading academic, it offers real insights in how to cope with the stresses and strains of a post-covid world. Michael Mosley, New York Times bestselling author and science journalist, discovered how expanding and improving your mental agility, your ability to flex your thoughts, feelings, and actions, can transform your life, bolster your resilience, and foster your zest for living. Endless self-help approaches claim to have the answer. It's important to be mindful, we are told, and to stay in the moment. Sometimes we are advised to keep going, no matter what, to be gritty. Others tell us that adopting a growth mindset is key. However, the truth is that there is no one-size-fits-all solution to dealing with life. Elaine Fox, one of the world's leading psychologists and performance coaches, has witnessed this time and again. In her work coaching top athletes, military leaders, and business professionals, she has seen that it's the people who know how and when to switch between different approaches, people who have an agile mind, who achieve the best performance. Drawing on 25 years of scientific research, Fox shares with us her step-by-step guide to what she calls *switchcraft*, the set of skills we need to navigate a complex and uncertain world. Whether it's coping with a difficult boss, overcoming a fear, dealing with hyperactive children, resolving a dispute with a friend, or making a difficult choice about where to live or what to do, *switchcraft* helps us thrive in any situation. Like your own personal life coach, *Switch Craft* shows you how to break out of a rigid mindset, to restore your fulfillment, curiosity, and zest for life. [The Washington Post Index](#), 1989
