The Brutal Truth About Asian Branding Joseph Baladi,2011-02-16 This is one of the most thoughtful books on branding I've come across Most such books are either quickly crafted how to books or academic tomes over burdened with references This book is thoughtful because it raises questions which deal with the why rather than just how of branding The reference to brutal truth as the truth which will set us free to examine ourselves without self illusions is liberating The notion that Asia has many good but no great brands is also not a put down but a clarion call for Asian CEOs to rise to the challenge and create lasting meaningful committed brands Ho Kwon Ping Chairman CEO Banyan Tree and Board of Trustees SMU 2010 recipient of the Lifetime Achievement Award by the American Creativity Association A cold shower to wake people up Joe Baladi's Brand Blueprint is a great tool for anyone involved in Sovereign Relationship Marketing or brand building anywhere Timothy Love Vice Chairman Chief Executive Officer Omnicom APIMA There are many books about branding but few address Asian companies directly Joe Baladi has been one of the loudest voices to advocate strong branding practices to Asian companies determined to outperform their competitors The Brutal Truth About Asian Branding is a timely book that all Asian CEOs with global aspirations should read Richard Eu Group CEO Eu Yan Sang International The Brutal Truth About Asian Branding is the first book that connects branding frameworks to the realities of operating in Asia It offers a very straightforward perspective on the challenges Asian CEOs face as they build their businesses and their brands and perhaps the most compelling part of the book is the passionate plea for how Asian CEOs should be thinking different about branding In true Baladi style it is straight from the heart Maarten Kelder Managing Partner Asia Monitor Group A very interesting and valuable perspective on Asian branding one that decision makers in the region should read and embrace Well done Joe Ron Sim Founder it is thoughtful and thought provoking putting people and brands center stage with practical insights borne of his breadth of personal experience at the frontline Chris D Beaumont Professor Tokyo University Global Centre of Excellence Director North Asia Results International The brutal truth is that Joe Baladi is right Asian CEOs must learn the brand skills used so successfully in the rest of the world It will take a big change in mentality but the rewards will be vast This book is a great start to that revolution Michael Newman Author 22 Irrefutable Laws of Advertising **Business World** ,2010 **The Times Index** ,2013-05 Indexes the Times Sunday times and magazine Times literary supplement Times educational supplement Time educational supplement Scotland and the Times higher education supplement Operations and Supply Chain Management for MBAs, EMEA Edition Jack R. Play Bigger Al Ramadan, Dave Peterson, Christopher Lochhead, Kevin Maney, 2016-06-14. The founders of a respected Silicon Valley advisory firm study legendary category-creating companies and reveal a groundbreaking discipline called category design. Winning today isn't about beating the competition at the old game; it's about inventing a whole new game, defining a new market category, developing it, and dominating it over time. You can't build a legendary company without building a legendary category. If you think that having the best product is all it takes to win, you're going to lose. In this farsighted, pioneering guide, the founders of Silicon Valley advisory firm Play Bigger rely on data analysis and interviews to understand the inner workings of category kings' companies such as Amazon, Salesforce, Uber, and IKEA that give us new ways of living, thinking, or doing business, often solving problems we didn't know we had. In Play Bigger, the authors assemble their findings to introduce the new discipline of category design. By applying category design, companies can create new demand where none existed, conditioning customers' brains so they change their expectations and buying habits. While this discipline defines the tech industry, it applies to every kind of industry and even to personal careers.

Crossing the Chasm revolutionized how we think about new products in an existing market. The Innovator's Dilemma taught us about disrupting an aging market. Now Play Bigger is transforming business once again, showing us how to create the market itself.
