snacks Meal prepping is not a waste and it's not outside your budget. Whether you plan a diet or a budget, when you're not eating healthy meals without having to diet, it's not for everyone. It is a great value and convenience and more than that. With meal prepping, you can eat the same thing for a few days so you don't get bored with food. Meal prepping is not for you if you're not maximizing your time and budget. It's not something you should do every day. Meal prepping is usually seen as a meal for the month or maybe one other person. Meal prepping for a whole family would be quite difficult but it would be a great idea. Food is stored in the refrigerator in a slow motion. In addition to that, the way food is packed and the individual nuances of your refrigerator can impact the quality of your refrigerated meals. The quality is not acceptable. The texture and flavor will be affected. Always begin with the refrigerator guidelines that the FDA and the nutritionists give you. Your own preferences in regard to diet and health are more important than anything else. I find that the food that I eat is not as good as it should be. **Meal Prep Cookbook** Keith S.
