The New Resurrection Ryuho Okawa,2020-02-26 The New Resurrection is an autobiographical account of an astonishing miracle experienced by author Ryuho Okawa in 2004 This event was adapted into the feature length film Immortal Hero released in Japan the United States and Canada during the Fall of 2019 Chapter 1 recounts the incredible

story of Ryuho Okawa's resurrection from physical death. At the age of 47, Okawa suffered a severe episode of chest pain and was rushed to a local hospital. Upon intake, attending physicians remarked you should be dead as the medical examination revealed that Okawa's heart had stopped. Unbelievably, during the onset of cardiac arrest, he was fully conscious and responsive, witnessing the startling diagnosis unfold by a team of respected physicians at a prestigious Tokyo hospital. Chapter 2 is a transcription of a live Q & A session from the 2019 lecture "The New Resurrection in Tokyo, Japan" where Okawa candidly recounts how his life has changed post-miracle. In chapter 3, Okawa publishes 15 select poems out of 108 that he composed from his hospital bed amidst a modest recovery. For the first time, Okawa shares sincere thoughts and contemplations as he faced and overcame death. Today, Okawa lives each day with the readiness to die for the Truth and has dedicated his life to selflessly guide faith seekers towards spiritual development and happiness. In testament to Okawa's earnest resolve, the appendix showcases a myriad of accomplishments by Okawa chronicled after his miraculous resurrection.

Alien Invasion Dr. Travis S. Taylor, Dr. Bob Boan, 2011-06-07. The ultimate survival guide for the ultimate attack written by two top scientists who know their subject inside and out. An amazing journey through what we do and do not know about how to defend ourselves before, during, and after an alien invasion from space. What if there really are aliens and they do attack? Read what two scientists reveal in this how-to survival manual for the space age: Alien Invasion. Unlikely as Pearl Harbor, the extinction of the dinosaurs, a meteor strike that levels whole forests in Siberia, you get the drift. Some events produce such a massive setback to life on Earth and to humanity that we must understand and prepare for them, even if the chances are low that they'll come about. In fact, it will be criminal and an abrogation of our duty to future generations if we do not get ready. But where to begin? Drs. Travis S. Taylor and Bob Boan have the answers. Both are experienced scientists, physicists with expertise in both defense and military signal intelligence, and experience working with both the Department of Defense and NASA. These are intellectual heavyweights who have a clear idea of the possibilities of alien contact, the calculations of whether or not that contact will be friendly, and what to do if it's not. An amazing journey through what we do and do not know about how to defend ourselves from space. Sure, that day may never come in our lifetimes, but everyone should have a copy of this lying around. JUST IN CASE. Heck, better yet, why not commit a few of these scientists' solutions to memory. Just in case. About Travis S. Taylor's ground-breaking popular fiction, it explodes with inventive action, dazzling cutting-edge scientific possibilities. Publishers Weekly. About Alien Invasion: In a business that strictly separates technology and conjecture, this is a well-considered, very comprehensive work. United States Space is a serious business, but what if there is an external threat? Dr. Byron Knight, NRO Chief Scientist, MASINT, the definitive book on the defense of Earth against a potential alien incursion, the book also serves as an important primer on the potential future of warfare on every level. It is tightly grounded in current-day realities of war and extrapolates thoughtfully but closely about future potentials. It should be on the reading list of anyone who is serious about national security and the future of war. John Ringo, New York Times best
