**English File** Christina Latham-Koenig, Clive Oxenden, Jane Hudson, Jerry Lambert, 2012 **The Use of Pop Songs in the EFL Classroom** Ornerová Lenka, 2011-03-09 Inhaltsangabe Introduction I have chosen the topic of using pop songs in the EFL classroom because I strongly believe that working with pop songs is a highly motivational device. When I was a student at a lower and upper secondary school listening to songs in English classes was my favourite activity. I have always wanted to be able to understand the lyrics of songs I listened to. Later I realized that I have learned a lot from listening to pop songs and analyzing their lyrics. Therefore in my diploma project I would like to prove that using pop songs is a highly motivational device in teaching English with instructional value and that students enjoy working with pop songs. The theoretical part of this diploma project is based on relevant sources of background literature. In the first two chapters the use of songs is described with regard to motivation and the Multiple Intelligences Theory. The third and fourth chapter deal with the reasons for using songs and their classification. In the last two chapters of the theoretical part pedagogical principles of using pop songs in class as well as the pros and cons of teaching through pop songs are presented. The practical part is based on the findings of three surveys I have conducted in the field of using songs in the EFL classroom. In the first part of the research I present an analysis of questionnaires which I distributed among English teachers at lower and upper secondary schools and grammar schools. In the second part of the research I describe students' attitudes to pop song based lessons which I taught during my teaching practice at grammar schools. In the third part of the research I analyze the types of songs presented in commonly used textbooks at lower and upper secondary schools. In addition I present a self-developed teaching material containing a list of pop songs suitable for the EFL classroom. In the last part of the practical part I answer the research questions and provide some implications for my own teaching.
