The Connected Home: The Future of Domestic Life Richard Harper,2011-12-08 The title of this new book *The Connected Home* reflects the move away from the idea that smart homes would alter the lives of those living in them by providing technologies to take over tasks that were previously the responsibility of the householder such as managing entertainment education and even eating Up until around 10 years ago this view was commonplace but time has shown that the technologies to support a smart home have not developed in such a way as to support this premise Instead what people do in their homes has moved the concept of a smart home into that of the connected home The rise of on line games technologies video connections via Skype social networking internet browsing etc are now an integral part of the home environment and have had a significant effect on the home The contributors to this exciting new book consider and discuss the effects and ramifications of the connected home from a variety of viewpoints an examination of the take up of personal computers and the Internet in domestic situations an analysis of the changing intersection of technology and human habits in the connected home the impact of gaming texting e book readers tablets and other devices and their effect on the social conditions of a household the relationship between digital messaging applications and real geography and an overview of how sensing technologies for the smart home might evolve lightweight medical technologies for example The book culminates by addressing unfinished ambitions from the smart home agenda the factors that have prevented their realisation and addresses the need for extending research into the area

Irresistible! Markets, Models, and Meta-Value in Consumer Electronics (paperback) George Bailey,Hagen Wenzek,2011-06-01 The consumer electronics industry is entering an era of extraordinary growth The industry s best companies will ride that wave to unprecedented success But today many CE companies are struggling with business models that are simply untenable They must change to survive they must change even more dramatically to win In this book two world renowned consultants preview the industry s future from online gaming to telehealthcare and beyond Next they
