Hamido Fujita,Enrique Herrera-Viedma,2018-09-15 Knowledge based systems fully integrated with software have become  
essential enablers for both science and commerce But current software methodologies tools and techniques are not robust or  
reliable enough for the demands of a constantly changing and evolving market and many promising approaches have proved  
to be no more than case oriented methods that are not fully automated This book presents the proceedings of the 17th  
international conference on New Trends in Intelligent Software Methodology Tools and Techniques SoMeT18 held in  
Granada Spain 26 28 September 2018 The SoMeT conferences provide a forum for the exchange of ideas and experience  
foster new directions in software development methodologies and related tools and techniques and focus on exploring  
innovations controversies and the current challenges facing the software engineering community The 80 selected papers  
included here are divided into 13 chapters and cover subjects as diverse as intelligent software systems medical informatics
