Chapter 2 One-Dimensional Kinematics Q.1CQ

You and your dog go for a walk to a nearby park. On the way, your dog takes many short side trips to chase squirrels, examine fire hydrants, and so on. When you arrive at the park, do you and your dog have the same displacement? Have you traveled the same distance? Explain.

Solution:

The displacement is the same for the dog and us, while the distance traveled by the dog is greater than the distance traveled by us.

Chapter 2 One-Dimensional Kinematics Q.1P

Referring to Figure you walk from your home to the library, then to the park. (a) What is the distance traveled? (b) What is your displacement?

Physics for Scientists and Engineers with Modern Physics Douglas C. Giancoli, 2008 Key Message This book aims to explain physics in a readable and interesting manner that is accessible and clear and to teach readers by anticipating their needs and difficulties without oversimplifying Physics is a description of reality and thus each topic begins with concrete observations and experiences that readers can directly relate to We then move on to the generalizations and more formal treatment of the topic Not only does this make the material more interesting and easier to understand but it is closer to the way physics is actually practiced
