Java with Object-oriented Programming Paul S. Wang,2003 Paul Wang s JAVA WITH OBJECT ORIENTED PROGRAMMING eases students into an understanding of the object oriented paradigm from the very first page just as he does in JAVA WITH OBJECT ORIENTED PROGRAMMING WITH WORLDWIDE WEB APPLICATIONS on which this new book is modeled After the early chapters that present classes and Java features and constructs Wang introduces new object oriented concepts throughout the book while clearly showing how Java addresses these issues He also goes the extra step of including case studies to illustrate how Java and object oriented programming are applied Early in the book Wang introduces students to a case study involving a pocket calculator This case study is revisited throughout the book as students learn new aspects of object oriented programming and the Java language The book then concludes with a chapter on some of the processes associated with object oriented design As a result students are able to fully grasp the concepts they learn

*Object-oriented Software Engineering* Bernd Bruegge,Allen H. Dutoit,2010 This textbook develops a long term single project and explores both the theoretical foundations of software engineering as well as the principles and practices of various tools processes and products It emphasizes practical experience whereby participants can apply the techniques learned in class to a realistic problem      **Data Structures** Elliot B. Koffman,Paul A. T. Wolfgang,2021-04-06  
**Data Structures Abstraction and Design Using Java** offers a coherent and well balanced presentation of data structure implementation and data structure applications with a strong emphasis on problem solving and software design Step by step the authors introduce each new data structure as an abstract data type ADT explain its underlying theory and computational complexity provide its specification in the form of a Java interface and demonstrate its implementation as one or more Java classes Case studies using the data structures covered in the chapter show complete and detailed solutions to real world problems while a variety of software design tools are discussed to help students Think then code The book supplements its

rigorous coverage of basic data structures and algorithms with chapters on sets and maps balanced binary search trees graphs event oriented programming testing and debugging and other key topics Now available as an enhanced e book the fourth edition of Data Structures Abstraction and Design Using Java enables students to measure their progress after completing each section through interactive questions quick check questions and review questions Data Structures in Java Thomas A. Standish,1998 Using Java TM 1 1 Professor Thomas A Standish teaches the fundamentals of data structures and algorithms With this exciting new language Standish takes a fresh look at the subject matter New challenges arise any time a new language is used and the author meets these challenges For example although Java is a language without explicit pointers this book offers pointer diagrams to help students visualize reason about and understand this major Data Structures topic Standish s clear presentation helps readers tie the many concepts of data structures together with recurring themes Central ideas such as modularity levels of abstraction efficiency and tradeoffs serve as integrators in the book in order to tie the material together conceptually and to reveal its underlying unity and interrelationships Highlights Reviews the fundamentals of object oriented programming and Java in Chapter 2 and Appendix A allowing students with no prior knowledge of Java to get up and running quickly Creates a Java applet with a simple GUI in Chapter 2 Covers recursion early and carefully in Chapter 4 to help students grasp this challenging concept Includes an introduction to modularity and data abstraction concepts in Chapter 5 and coverage of key software engineering concepts and skills in Appendix C Contains common pitfall sections at the end of each chapter to help students recognize and avoid potential dangers Instructor s materials are available from your sales rep If you do not know your local sales representative please call 1 800 552 2499 for assistance or use the Addison Wesley Longman rep locator at <http://hepg.awl.com/replocator/020130564XB04062001>
