exciting process and the low rank matrix factorization in a principled manner In the fourth part of this work we estimate the triggering kernels for the Hawkes process In particular we focus on estimating the triggering kernels from an infinite dimensional functional space with the Euler Lagrange equation which can be viewed as applying the idea of low rank factorizations in the functional space Linguistics and Language Behavior Abstracts ,1990 **Electrical & Electronics Abstracts** ,1997 **International Aerospace Abstracts** ,1999 **Government reports annual index** ,199?
