Rules on Digital Trade in the Light of World Trade Organization Agreements Asif Khan, 2023-12-14 Doctoral Thesis Dissertation from the year 2023 in the subject Business economics Trade and Distribution language English abstract This doctoral dissertation deals with rules on digital trade in the light of WTO agreements Digital trade has brought about profound changes in the international trade framework Traditional trade which primarily involved the exchange of physical goods has now expanded to encompass a wide range of digitally delivered services online transactions and data flows This transformation has been driven by advancements in technology and the increasing interconnectedness of the global economy The digital economy encompasses various digital technologies

and platforms and has become a significant driver of economic growth and innovation. It allows businesses to reach international markets more quickly and efficiently, transcending geographical barriers. The internet, mobile devices, cloud computing, and artificial intelligence have facilitated this digital transformation. These technologies enable seamless communication, data storage and processing, automation, and personalised services, revolutionising how businesses operate and engage in international trade. Digital trade has created new opportunities for businesses of all sizes. Small and medium-sized enterprises have benefited from the ability to access global markets through digital platforms and e-commerce. These platforms provide a means for small and medium-sized enterprises to connect with potential customers worldwide, establish their presence and market their products and services without needing a physical presence in foreign markets. This has lowered entry barriers and empowered small and medium-sized enterprises to participate in global value chains, expanding their reach and contributing to economic growth. One of the notable developments in the digital trade era is the rise of platform-based businesses. These platforms, such as e-commerce marketplaces, ride-sharing services, and online payment systems, act as intermediaries connecting buyers and sellers across borders. They facilitate transactions, provide infrastructure and services, and enable businesses to expand their customer base globally. Platforms have become influential players in international trade, shaping market dynamics and redefining traditional trading systems.
