Analysis and Security Valuation Stephen H. Penman, 2007 Lays out the techniques and principles of financial statement analysis with a focus on the investor Works from a conceptual framework and provides tools for practical analysis Illustrates methods with applications to recognisable companies such as Nike Microsoft Dell and Coca Cola *Investment Banking Interview Questions and Answers - English* Navneet Singh, Preparing for an investment banking interview involves understanding both technical and behavioural questions Below are common categories of questions you may face along with sample answers to guide your preparation 1 Basic Finance Concepts Q What are the three main financial statements and how do they relate to each other A The three main financial statements are the Income Statement Balance Sheet and Cash Flow Statement The Income Statement shows a company s revenues expenses and profits over a period The Balance Sheet shows a company s assets liabilities and shareholders equity at a specific point in time The Cash Flow Statement reconciles the beginning and ending cash balances by outlining cash inflows and outflows from operating investing and financing activities These statements are interconnected For example net income from the Income Statement feeds into the Shareholders Equity

section of the Balance Sheet retained earnings and it also flows into the top line of the Cash Flow Statement starting point for operating cash flows

2 Valuation Techniques

Q Walk me through a discounted cash flow DCF analysis

A In a DCF we project a company's free cash flows over a period typically 5-10 years discount them to the present value using the company's weighted average cost of capital WACC and then calculate the terminal value The two components discounted free cash flows and terminal value give the enterprise value EV

Steps

Project free cash flows for a set period Determine the terminal value using either the Gordon Growth Model or Exit Multiple Method Discount both the projected cash flows and the terminal value back to present value using WACC Add the discounted cash flows and terminal value to determine the company's enterprise value

Q What are some other methods to value a company

A Besides DCF common methods include Comparable Companies Analysis Comps Comparing valuation multiples of similar public companies Precedent Transactions Analysis Looking at valuation multiples paid in similar historical transactions Leveraged Buyout LBO Analysis Estimating what a private equity firm would pay leveraging a large portion of the purchase with debt

3 Market and Industry Questions

Q What's happening in the market right now

A Stay updated with current events like interest rate changes

M A trends or economic reports e.g. inflation rates GDP For instance if interest rates are rising it might affect valuation by increasing the cost of debt and reducing DCF valuation Be prepared to discuss specific industries relevant to the firm you're interviewing with

4 Accounting Knowledge

Q How does depreciation affect the financial statements

A Depreciation affects all three financial statements

Income Statement It reduces taxable income as an expense lowering net income

Balance Sheet It reduces the value of fixed assets PP&E and is reflected in accumulated depreciation a contra asset account

Cash Flow Statement Depreciation is added back to operating cash flow because it is a non-cash expense

Q What is goodwill and how is it treated in financial statements

A Goodwill arises when a company acquires another company for more than its fair value It is an intangible asset on the Balance Sheet Goodwill is not amortized but is tested for impairment annually If impaired the loss is recorded on the Income Statement reducing net income and assets

5 Behavioural and Fit Questions

Q Why do you want to work in investment banking

A Highlight a passion for finance analytical challenges and deal making

Example I'm drawn to investment banking because it offers a unique combination of strategic thinking and analytical rigor The fast-paced environment and exposure to large transactions align with my long-term goals of learning the intricacies of corporate finance and working on complex deals

Q Tell me about a time you worked in a team under pressure

A Use the STAR method

Situation Task Action Result

Example During my internship my team was tasked with completing a valuation for a client's acquisition target under a tight deadline I took the initiative to create detailed financial models dividing the tasks among the team and ensured we communicated effectively We delivered the analysis ahead of schedule impressing both the client and senior leadership

6 Technical Questions

Q What is EBITDA and why is it important

A EBITDA Earnings Before Interest Taxes Depreciation and Amortization is a proxy for a company's cash flow from operations It's important because it removes the

impact of non cash items depreciation and amortization and financing decisions interest and taxes allowing investors to compare operational performance across companies Q How would you value a company with negative earnings A When a company has negative earnings methods like DCF and comparable multiples based on earnings may not be appropriate Instead you can use Revenue multiples EV Revenue Adjusted EBITDA multiples if the company has positive cash flow before interest taxes depreciation and amortization Asset based valuation particularly in distressed situations 7 Brain Teasers Problem Solving Q How many gas stations are there in the U S A This question is testing your ability to think logically Example approach U S population is roughly 330 million Estimate there s 1 car for every 2 people 165 million cars Each car needs gas about once per week Assume a gas station serves 2 000 cars per week Divide 165 million by 2 000 around 82 500 gas stations By preparing answers that demonstrate strong technical skills awareness of current market conditions and teamwork abilities you ll be ready to tackle both the technical and behavioural parts of your investment banking interview

The Analysis and Use of Financial Statements Gerald I. White, Ashwin Paul C. Sondhi, Dov Fried, 1993-11-01 **Financial Statement Analysis** Thomas R. Robinson, Paul Munter, Julia Grant, 2004 Robinson Munter and Grant s Financial Statement Analysis A Global Perspective is designed especially for users of financial statements Takes a financial statement analysis perspective The focus is on the user of financial statements and not the preparer of financial statements The emphasis is on the analysis and use of financial reports Knowledge of debits and credits is not required Emphasizes a global perspective by presenting both International Accounting Standards and U S GAAP Uses a step by step presentation to take students through the financial statement analysis process from understanding the financial statements to valuation Motorola and Nokia are used as running case examples throughout the text Additional real world examples are integrated into each chapter as appropriate Assignment Materials Many of the end of chapter problems have been reproduced from AIMR CFA R examination released questions and sample examinations Each chapter has a case derived from real company financial statements that can be used for class discussion or student projects *CFA Program Curriculum: Financial statement analysis*, 2008 **Expert Level Accountant Interview Questions and Answers - English** Navneet Singh, Here are some expert level accountant interview questions along with sample answers Question Can you explain the concept of comprehensive income and its components Answer Comprehensive income includes net income and other comprehensive income items Net income represents the profit or loss from ordinary operations while other comprehensive income includes gains and losses that bypass the income statement such as unrealized gains or losses on available for sale securities or foreign currency translation adjustments Question How do you handle complex financial reporting issues such as revenue recognition under ASC 606 or lease accounting under ASC 842 Answer I approach complex issues by thoroughly understanding the accounting standards assessing the impact on financial statements collaborating with cross functional teams and ensuring compliance through detailed documentation and disclosure For ASC 606 I analyse contracts identify

performance obligations allocate transaction price and recognize revenue when obligations are satisfied For ASC 842 I assess lease contracts determine lease classification calculate lease liabilities and right of use assets and ensure proper disclosures

Question Describe a situation where you identified a financial risk or inefficiency and implemented improvements

Answer In my previous role I noticed discrepancies in inventory valuation methods that were impacting profitability I conducted a detailed analysis proposed implementing the weighted average cost method and trained the team on its application This change resulted in more accurate financial reporting and improved decision making regarding inventory management

Question How do you stay updated with accounting standards and regulatory changes

Answer I stay informed through continuous professional development including attending seminars webinars and training sessions offered by professional organizations such as the AICPA and staying updated with publications like the Financial Accounting Standards Board FASB updates I actively participate in industry forums and discussions to understand practical implications of changes

Question Can you explain the process of conducting a financial statement analysis

Answer Financial statement analysis involves assessing the financial health of a company by reviewing its balance sheet income statement and cash flow statement I analyse profitability ratios liquidity ratios and solvency ratios to evaluate performance assess trends over time compare with industry benchmarks and provide insights to stakeholders for informed decision making

Question How do you handle disagreements with colleagues or clients regarding accounting treatments

Answer I approach disagreements by first understanding their perspective discussing the relevant accounting standards and principles and presenting factual evidence or examples to support my position I emphasize the importance of maintaining compliance with accounting regulations and standards while striving for mutually beneficial solutions that align with the company s goals and objectives

Question Describe a time when you successfully led a team through a challenging audit or financial project

Answer During a complex audit of our subsidiary I led a cross functional team through detailed planning coordination and execution I established clear roles and responsibilities conducted regular meetings to address challenges and ensured timely communication with stakeholders Through collaborative efforts and rigorous analysis we successfully completed the audit with minimal disruptions and identified areas for process improvement

These questions and answers demonstrate proficiency in accounting principles practical application of standards problem solving skills and leadership abilities which are crucial for an expert level accountant role
