contains a general outline of the principles of our language as embodied and illustrated in *The Institutes of English Grammar*. The definitions and explanations here given are necessarily few and short. The writer has endeavored to make them as clear as possible and as copious as his limits would allow but it is plainly impracticable to crowd into the compass of a work like this all that is important in the grammar of our language. Those who desire a more complete elucidation of the subject are invited to examine the author's larger work. The First Lines of English Grammar
Goold Brown, 2018-01-29. Excerpt from *The First Lines of English Grammar Being a Brief Abstract of the Author's Larger Work the Institutes of English Grammar Designed for Young Learners*. The time which has elapsed since the author first published this work has been mainly spent in labours and studies tending very directly to enlarge and mature his knowledge of English Grammar and especially to better his acquaintance with the great variety of books and essays which have been written upon it. The principal result of these labours and studies has been given to the world in his large work entitled *The Grammar of English Grammars*. To conform the future editions of these Institutes more nearly to the text of this large Grammar to supply some deficiencies which have been thought to lessen the comparative value of the former work to divide the book more systematically into chapters and subdivisions and to correct a few typographical errors which had crept in were the objects contemplated in the revision which has now been effected.
