Disagreement, Deference, and Religious Commitment John Pittard, 2019-10-01 The striking extent of religious disagreement suggests that religious conviction is very often the result of processes that do not reliably produce true beliefs. For this reason, many have argued that the only rational response to religious disagreement is to adopt a religious skepticism that eschews confident religious belief. Disagreement, Deference, and Religious Commitment contests this skeptical conclusion, explaining how it could be rational to maintain confident belief even in the face of the epistemic worries posed by disagreement. John Pittard argues against the commitment to rigorous epistemic impartiality that underlies the case for disagreement-motivated religious skepticism while also critiquing approaches to disagreement that allow for the unproblematic privileging of one's first-person perspective. He emphasizes the importance of having rational insight into reasons that favor one's outlook; however, he challenges narrowly intellectualist accounts of insight, arguing that many of the rational insights crucial to assessing religious outlooks are not achievable through analytical reasoning but only through relevant emotional experiences. In the second part of the book, Pittard considers the implications that accepting the impartiality requirement favored by disagreement skeptics has for religious commitment. He challenges the common assumption that a commitment to rigorous epistemic impartiality would rule out confident religious belief. He further argues, however, that such an impartiality commitment would likely make it irrational to pursue one's favored form of religious life and might prevent one from rationally engaging in any religious or irreligious way of life whatsoever. This troubling conclusion gives reason to hope that the arguments against impartiality are correct and that one can justify conviction despite widespread disagreement.

Luck's Mischief Ishtiyaque Haji, 2016 Something is subject to luck if it is beyond our control. In Luck's Mischief, Haji argues that owing frequently to precluding our being able to otherwise, luck limits both the range of what is morally obligatory for us and things for which we are morally responsible.

Free Will and Theism Kevin Timpe, Daniel Speak, 2016-04-29 Concerns both about the nature of free will and about the credibility of theistic belief and commitment have long preoccupied philosophers. In addition, there can be no denying that the history of philosophical inquiry

into these two issues has been dynamic and at least to some degree integrated. In a great many cases classical treatments of one have influenced classical treatments of the other and in a variety of ways. Without pretending to be able to trace all the historical integrations of these treatments there is no real question that these philosophical interrelations exist and are worthy of further exploration. In addition contemporary discussions contain more than a few hints of suspicion that theistic belief is adversely affecting the purity of inquiry into contours of human free will. Nevertheless until now there has been no volume systematically exploring the relationship between religious beliefs and various accounts of free will in the contemporary domain. With a particular eye on how the former might be either legitimately or illegitimately affecting the latter this collection fills an important gap in the current debate. Here sixteen leading philosophers focus their attention on a crucial point of intellectual intersection with surprising and illuminating results.

Knowledge by Agreement Martin Kusch, 2004. Martin Kusch puts forth two controversial ideas that knowledge is a social status like money or marriage and that knowledge is primarily the possession of groups rather than individuals. He defends the radical implications of his views that knowledge is political and that it varies with communities. This bold approach to epistemology is a challenge to philosophy and the wider academic world.

For the Right Reasons Kara Lennox, 2014. Secrets murder redemption. Dr Bree Johnson won't let an innocent man rot in jail. Why won't Project Justice's handsome attorney Eric Riggs listen to her when she knows her ex Kelly Ralston did not commit the crime he's been arrested for? Little does she know that Kelly has threatened Eric's daughter and that the secrets in this case go beyond them all. But who is controlling Kelly Bree and Eric will have to trust one another in order to bring the real criminal to justice. Bree might have met the love of her life but if she and Eric don't stay ahead of the killer her life might not be a long one.

God, Suffering, and the Value of Free Will Laura W. Ekstrom, 2021-02-23. For many of us the question of whether or not God exists is one of the most perplexing and profound questions of our lives and numerous philosophers and theologians have debated it for centuries. Laura Ekstrom here takes a new look at the issue of God's existence by examining it against the reality of human suffering bringing to the fore contentious presuppositions concerning agency and value at the core of the matter. When we survey the world we observe an enormous amount of pain including virtually unspeakable kinds of maltreatment and agony many instances of which seem patently unfair unearned and pointless. This book argues that in light of these observations it is reasonable to conclude that God does not exist. The book unravels the extent and power of arguments from evil. Ekstrom provides a close investigation of a largely overlooked claim at the heart of major free will based responses to such arguments namely that free will is worth it sufficiently valuable to serve as the good that provides a God justifying reason for permitting evil in the world. Through fresh examinations of traditional theodicies Ekstrom develops an alternative line called divine intimacy theodicy and makes an extended case for rejecting skeptical theism. The book takes up an argument from evil concerning a traditional doctrine of hell which reveals a number of compelling issues concerning fault agency and blameworthiness. In response to recent work

contending that the problem of evil is toothless because God is indifferent to human beings Ekstrom defends the essential perfect moral goodness of God She further tackles the question of whether or not it is possible to live a religious life as an agnostic or as an atheist Through rigorous reflection with deep respect for religious thought and experience and with sensitivity to the range and kinds of suffering so many endure Ekstrom firmly advances discussion of the problem of evil and paves the way for further scholarship in the philosophy of religion The Living Age ,1908 **Reports of Cases Argued and Determined in the Supreme Court of the State of Oregon** Oregon.
