

## Engine 113 - Exhaust system

### AMG exhaust system

The AMG sports exhaust system in the SLK 55 AMG satisfies the US emissions limits and is perfectly tuned in terms of function and sound to the AMG 5.5 l V8 engine. The near-engine mounted bulkhead catalytic converter is coated with palladium/rhodium while the under-floor catalytic converter is platinum/rhodium-plated. The longevity of the exhaust system is provided by the use of stainless steel throughout.

The catalytic converter system incorporates one bulkhead and one underfloor catalytic converter (both made from thin-wall ceramic) in each exhaust stream. Downstream of the separation point of the two catalytic converter systems, the exhaust streams are combined in the center muffler. Further on, the exhaust flow continues in twin pipes to the two rear mufflers.

The AMG sports exhaust system ends in two chrome-plated twin tailpipes bearing the AMG logo.
