This book encourages teacher educators to promote flexible and sustainable practice in their students, enabling them to flourish within an ever-changing educational environment. Research from the UK and US strongly indicates that a coherent theory-practice approach to teacher preparation is key. The book outlines what such a framework can look like, a rationale for it, and how it can work in practice for groups and individuals. It explores the notions of the reflexive teacher, creativity as a basis for practice, and criticality as a necessary underpinning for educators. The discussion draws on the research and experiences of teacher educators, student teachers, and in-service teachers, from NQTs to Lead Practitioners and senior management. It proposes the foundational understanding for beginning teachers to join a community of practice based on scholarship, professionalism, and ethical practice. This book is part of the successful *Critical Guides for Teacher Educators* series, edited by Ian Menter. **Your Primary School-based Experience** Catriona Robinson, Branwen Bingle, Colin Howard, 2025-02-28. This book is an essential companion for all primary trainee teachers, whatever their training route. It focuses on the school-based experience and provides both practical strategies and opportunities for reflection, so trainees are challenged to critically evaluate their learning in order to improve attainment and ultimately succeed while in their school settings. The book reflects current educational policy and embraces key national priority areas, including behaviour, inclusion, and the teaching of phonics and early mathematics. Other chapters look at professional partnerships, planning, and assessment, employability, and
