[TikTok as Entertainment or Misleading App?](#) John Maish, 2023-09-20 Essay from the year 2021 in the subject Communications Mass Media grade 3 0 University of California San Diego course Media Studies language English abstract This essay critically analyzes the popular video sharing app TikTok and questions whether it should be perceived primarily as an entertainment platform or as a source of misleading content The author reflects on how

TikTok's algorithmically customized feed and divination videos promoted addictive viewing habits and dubious life advice in a friend. However, the app also spreads joy through funny videos. The essay concludes that while TikTok has merit as an entertainment app, users should be cautious of videos that try to deceptively influence major life decisions. Overall, the essay urges readers to approach TikTok with nuance, enjoying its amusing content while maintaining skepticism about guidance from its most exploitative corners.

Mobile Media Use Among Children and Youth in Asia Andrew Zi Han Yee, 2025-01-21

This book examines mobile media use among children and youths within an Asian context. By studying the impact of mobile media on children and youth in Asia, it focuses on the explosive growth of mobile media among young people and seeks to understand the potential consequences of mobile media use on society, relationships, and what it means to be a young person. With this, it provides a richly contextualized Asian voice to research on mobile media and young people, enriching the global conversation surrounding an increasingly central aspect of youths' everyday lives. Research on mobile media and its impact on children and youths in Asia is not thoroughly represented despite the proliferation of smartphone and tablet use in the region. This volume fills this gap by canvassing contemporary research on mobile media, children, and youth in Asia through the perspectives of emerging scholars in the region and beyond. It promotes an understanding of the motivations and patterns of use by children and youth in the region, examines contemporary research on the antecedents and consequences of mobile media use on society, relationships, and the individual, and provides a critique of mobile media use among children and youth. The volume also provides a culturally sensitive examination of mobile media use among children and youth, describing and analyzing policies enacted to manage young people's smartphone use. It acknowledges Asia as a large and diverse region with differing linguistic, cultural, and sociopolitical traditions and contexts, and so the work does as far as possible to ensure geographic and cultural diversity by prioritizing works from countries that are typically underrepresented. It is a relevant text to graduates and researchers in communication and media studies, social and developmental psychology, human development studies, science and technology, information systems, and design science.

No Hard Feelings Genevieve Novak, 2022-04-01 Hungover underpaid and overwhelmed this isn't where Penny expected to be as she reached her late twenties A sharp smart and witty look at adulting Fleabag meets Sorrow and Bliss with a splash of Dolly Alderton No Hard Feelings is clever funny and surprisingly sweet and Penny captured my heart Toni Jordan I exist on validation from emotionally unavailable men biscuits and cheap wine and it's easier to get off with Max than a Tiny Teddy Penny can't help but compare herself to her friends Annie is about to become a senior associate at her law firm Bec has just got engaged Leo is dating everyone this side of the Yarra and Penny is just waiting Waiting for Max her on again off again boyfriend to allow her to spend the night waiting for the promotion she was promised waiting for her Valium to kick in Waiting for her real life to start Out of excuses and sick of falling behind Penny is determined to turn things around She's going to make it work with Max impress her tyrannical boss quit seeing her useless therapist remember to water her plants and stop having panic attacks in the work toilets But soon she's back to doomscrolling on Instagram necking bottles of Aldi's finest sauvignon blanc and criticising herself with renewed vigour and loathing As her goals seem further away than ever she has to wonder when bad habits feel so good how do you trust what's right for you Praise for No Hard Feelings Genevieve Novak will inevitably be compared to other authors but the truth is she is herself and herself alone and that's a good thing Funny biting vulnerable and unflinching Novak's novel is like an ocean dip a bit salty very refreshing Lauren Sams Scaldingly funny and biting real No Hard Feelings deserves a warning label danger may induce binge reading

With her sly wit Genevieve Novak's debut demonstrates a brilliant eye for observing the little things in life which together can be the biggest things of all. **Tori Haschka**, author of *Grace Under Pressure*, No Hard Feelings is a gratifying warm and funny debut. **Books Publishing** Novak has perfectly captured the self-doubt and total horror of having to be happy and functional in your twenties. It would have you crying into your chipped manicure if it wasn't so darn funny. **Kimberley Allsopp**, author of *Love and Other Puzzles*. **Billboard**, 2010-01-09 In its 114th year Billboard remains the world's premier weekly music publication and a diverse digital events brand content and data licensing platform. Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music, video, gaming, media, digital and mobile entertainment issues and trends. **Four Days a Week**, Juliet Schor, 2025-06-03 Bestselling author, leading sociologist and economist Juliet Schor makes the case for a four-day work week persuasively showing how this model can address major challenges such as burnout, AI and the climate crisis and how employees, companies and governments can work together to make it a reality. Around the world long hours and intense pressure are taking their toll. When the pandemic hit in 2020, work-induced stress and burnout skyrocketed. Many reached a breaking point. Now three quarters of the world's employees are disengaged and struggling, including in the US and Canada where half are experiencing high levels of daily stress. Our current work culture, the five-day, forty-hour-a-week model which has gone unchanged for nearly a century is failing. But a remedial countertrend has emerged: the four-day work week. Kickstarter, Bolt, Basecamp, ThredUp and hundreds of other employers have eliminated the fifth day of work successfully, figuring out how to maintain productivity while seeing remarkable improvements in employee well-being. Hiring is easier and fewer people are quitting. These results are global. Working a four-day week, people feel energized, capable and more optimistic about their lives and their jobs. *Four Days a Week* is the first large-scale study of this trend. Juliet Schor, an expert who has researched and written about work for more than four decades, beginning with her *New York Times* bestseller *The Overworked American* in 1992, shares her pioneering analysis of the benefits of a shorter work week, how companies can achieve them, why the concept has taken so long to emerge and gain acceptance, and why doing so will help a company's employees and its bottom line. The book is a blueprint for implementing a change that once seemed radical but is now within reach. **Introduction to Information Systems**, R. Kelly Rainer, Brad Prince, 2023-09-27 *Introduction to Information Systems*, 10th Edition teaches undergraduate business majors how to use information technology to master their current or future jobs. Students will see how global businesses use technology and information systems to increase their profitability, gain market share, develop and improve their customer relations and manage daily operations. This course demonstrates that IS is the backbone of any business, whether a student is majoring in accounting, finance, marketing, human resources, production, operations management or MIS. In short, students will learn how information systems provide the foundation for all modern organizations, whether they are public sector, private sector, for-profit or not-for-profit. **Hate Follow**, Erin Quinn-Kong, 2024-10-08 A rich and witty story with two complicated women at its heart. *Hate Follow* is a
