Summary of World Broadcasts British Broadcasting Corporation. Monitoring Service, 1974-06 *Revolution in Higher Education* Richard A. DeMillo, 2015-08-28 Colleges and universities have become increasingly costly, but for the past few years, technology-fueled innovation has begun to transform higher education, introducing new ways to disseminate knowledge and better ways to learn, all at lower cost. In this book, the author tells the story of these pioneering efforts and offers a roadmap for transforming higher education. He chronicles, among other things, the invention of MOOCs (Massive Open Online Courses) by professors at Stanford and MIT; Salman Khan's Khan Academy; the use of technology by struggling, historically Black colleges and universities to make learning more accessible; and the latest research on learning and the brain. He describes the revolution's goals and the entrenched hierarchical system it aims to overthrow, and he reframes the nature of the contract between society and its universities.
