Netflix 2025 Open Now:

Newsies, Newsies--Read All About It! Emily Hamilton-Honey, 2026-02-02 Newsies has been a self-perpetuating cultural phenomenon for over three decades. Initially a box office flop, the 1992 film musical became a cult classic and created a legendary fandom. Members of that same fandom were instrumental in making the 2012 Broadway show a smash hit; the stage production ran for over 1,000 performances and won two Tony awards, had a two-year North American tour, and was filmed for Netflix. A successful second production was mounted in the 2022-23 season in London's West End. Now, in the first ever collection of scholarly writing about Newsies, voices from across academia and fandom come together to consider why this beloved property means so much to so many and how it continues to inspire and light the civic imaginations of people all around the world.

[The Age of Netflix](#) Cory Barker, Myc Wiatrowski, 2017-09-19 In 2016, Netflix, with an already enormous footprint in the United States, expanded its online streaming video service to 130 new countries, adding more than 12 million subscribers in nine months and bringing its total to 87 million. The effectiveness of Netflix's content management lies in its ability to appeal to a vastly disparate global viewership without a unified cache of content. Instead, the company invests in buying or developing myriad programming and uses sophisticated algorithms to narrowcast to micro-targeted audience groups. In this collection of new essays, contributors explore how Netflix has become a cultural institution and transformed the way we consume popular media.

International Economic Law in a Developed Korea Asif H Qureshi, Nany Hur, Jeong Ah Lee, 2026-01-27 The book examines South Korea's evolving role in the global economic legal framework by analyzing how this developed nation navigates complex trade relationships, shapes international norms, and addresses emerging challenges in a rapidly changing world order. Through detailed case studies of South Korea's economic diplomacy with major partners, it traces the country's strategic transition from adhering to GATT rules to becoming a leader in regional free trade agreements. It also explores South Korea's innovative methods of integrating sustainability and digitalization into its trade policy. The book provides a clear understanding of how a developed Asian economy balances domestic priorities with international obligations. By investigating the causal mechanisms behind its policy choices, the book assesses the strengths and weaknesses of South Korea's strategies as an influential middle power and their global impact. This book will be of interest to scholars and policymakers in international economic law, comparative law, international trade, and investment law, particularly those interested in Asian perspectives on global economic governance.

Cultural Funding and Financing Carolina Dalla Chiesa, Anders Rykkja, 2026-01-03 This edited open access volume offers a comprehensive analysis of new and traditional funding models for the arts and culture. In the economic and political contexts of reduced art funding, the book takes an objective, pragmatic, and heterodox approach to demonstrate how financial sustainability in the arts can be achieved via a range of top-down and bottom-up mechanisms, which are valued either in terms of institutional or crowd-based legitimacy. The book aims to offer both a scholarly interpretation of established and emerging funding and financing practices within the cultural and creative sector, as well as guidance for artists, creators, and cultural programmers through various case studies and multiple examples of current practices. Contributions are divided into three sections: Section one outlines the most important traditional tools and models, while the second part covers the key contemporary practices premised on the use of digital platforms, and the final part introduces several case studies. The objective of this volume is to demonstrate that while traditional models show no signs of being supplanted, digitalisation has facilitated the emergence of new forms. Such an evolution has consequences for creators of works, as well as those willing to support them. The contributions address these issues by investigating and analysing the individual or combined adoption of traditional and new funding and financing models in a post-digital context.
